Aaryan Gandhi

(916) 829-9020 | aaryang@berkeley.edu | www.linkedin.com/in/aaryan-gandhi/

EDUCATION

University of California, Berkeley **Expected Graduation: May 2029**
B.A. Economics and B.A. Data Science **Cumulative GPA: 3.87**

- **Relevant Coursework:** Macroeconomics, Microeconomics, Data Structures, Data Ethics, Computational Structures in Data Science, Introduction to Probability and Statistics, Linear Algebra and Differential Equations, Entrepreneurship

EXPERIENCE

IBM **Berkeley, CA**
Technical Consultant *January 2026 – May 2026*

- Leveraged agentic AI workflows in IBM Granite to analyze performance trade-offs and optimization strategies across **20+ model configurations** for an autonomous racer, contributing to structured analysis of overall system performance.
- Analyzed 50+ simulation runs to detect bottlenecks, **improving lap efficiency by 16%** through data-driven refinement.
- Crafted client deliverables with core performance metrics, translating into strategic insights for AI-driven deployments.

The Silicon Partners, Inc. **Folsom, CA**
Business Development Intern *June 2025 – August 2025*

- Supported team of consultants and technical leads by aligning SAP and AI-driven automation solutions to core customer needs, helping to secure a **$340K client deal** through proposal development and execution of implementation strategies.
- Conducted industry research across **30+ accounts**, synthesizing insights to identify market trends and support outreach.
- Utilized Excel models to analyze market data and support key financial and strategic analyses for client-focused initiatives.

MAK FinTech Global **Remote**
Trading Intern *June 2024 – August 2024*

- Executed **100+ historical backtests**, applying financial modeling techniques to optimize algorithmic trading strategies.
- Analyzed technical indicators like moving averages and stop-loss, adjusting automated trading rules and risk parameters.
- Supported system development for institutional clients such as **HSBC and Amro Bank**, contributing to live deployment.

Business Professionals of America (BPA) Club **Sacramento, CA**
President *October 2021 – May 2025*

- Grew membership to **30+ students** in 4 years, by leading weekly presentations, guest speaker series, and club direction.
- Organized competition-focused preparation and mentorship, enabling **20+ students** to place for BPA nationals twice.
- Extended club competitions to the JEA Stock Market Challenge for charity, placing 5th among 100 high schools in 2025.

AWARDS & HONORS

UC Berkeley Center for Entrepreneurship & Technology Pitch Competition *January 2026*

- Ranked 1st in startup track among 20 UCB startup teams, presenting to venture capitalists and experienced founders.
- Built Tethr, an AI-driven conference networking app matching industry professionals by common goals and availability, delivering a thorough pitch deck with GTM strategy, competitive analysis, business model, and financial projections.

National BPA Financial Portfolio Management Finalist *February 2024*

- Placed 4th out of 154 teams in BPA's stock market game applying Elliot Wave theory and its algorithmic trading software.
- Secured $16,000 in profit with a starting $100,000 portfolio by analyzing market trends and utilizing technical analysis.

National BPA Startup Enterprise Finalist *April 2023*

- Placed 4th out of 173 teams qualifying for BPA nationals after pitching an AI-powered FinTech startup to expert judges.
- Created a 38-page business plan for a fintech startup concept, StockSearch, which provides algorithmic trading advice for beginning to experienced investors. Built financial statements, product designs, and developed a viable business strategy.
