RELEVANT EXPERIENCE

Trademo | *Intern*, Palo Alto, CA *June – August 2026*
- Built a market-sizing model in Excel to estimate growth in total addressable customers, identifying 10% increase in addressable customers
- Researched pricing and margin data across 10+ competitors to help inform a client's pricing recommendation and revenue strategy
- Analyzed market data to identify potential new revenue streams and presented findings in a final project report

Aditya Birla Investment Group | *Intern*, New Delhi, India *June – July 2025*
- Analyzed financial statements of 5+ portfolio companies to assess liquidity, leverage, and profitability trends, summarizing findings for the investment team
- Built a comparable companies spreadsheet by gathering company data and calculating valuation multiples under senior team guidance
- Reviewed cash flow trends across the portfolio to identify emerging working-capital concerns and flag potential areas for review

UdoLight Solar Initiative | *Founder*, Lagos, Nigeria *August – December 2022*
- Directed a $1,200 micro-finance initiative with a local bank to install solar panels in 10 rural homes in Lagos, providing 24/7 electricity to off-grid families
- Sourced the micro-loan agreement with KCMFB Bank, negotiating repayment terms and conditions that kept the program running
- Trained the 10 participating households on proper system maintenance and consistent repayment tracking to ensure program success

LEADERSHIP

Hinsdale Debate Club | *Co-Founder & Head Captain*, Hinsdale, IL *August 2024 – May 2026*
- Elected by club sponsors to lead and grow the Lincoln-Douglas debate section; partnered with fellow board members to expand club participation and competitive success
- Mentored 10 students and coordinated weekly training sessions to develop competitors' argumentation and delivery skills, ultimately leading to team qualification for the National Speech & Debate Tournament
- Worked to recruit 15+ new members and redesign the novice curriculum, growing enrollment by 30% year-over-year

Hinsdale Science Olympiad | *Captain,* Hinsdale, IL *August 2023 – May 2026*
- Managed event scheduling, roster organization, and communication with school administration to keep team logistics running smoothly
- Mentored 10+ JV/Novice team members through individualized coaching, helping 9 of them earn at least one medal at a competition
- Coordinated rosters across 20+ competition events, ensuring full team coverage and optimal event assignments at regional meets

RESEARCH

International Journal of Economics and Management Studies | *Published Author*, Hinsdale, IL *June 2024 – November 2025*
- Conducted panel-data analysis using regression modeling to examine ESG performance and firm profitability across 950+ firms
- Applied quantitative research methods, financial statement analysis, and cross-country comparison to identify corporate governance and cash flow efficiency as significant determinants of financial performance.
- Awarded the CREST Gold Award by the British Science Association; presented findings at the International Conference on Applied Research in Management, Economics, and Accounting.

FINANCIAL MODELING & COURSEWORK

3 Statement Model on Coca Cola — Built an integrated 3-statement model (income statement & balance sheet) with a 5-year forecast
DCF Model on NVIDIA — Built a DCF valuation using 5-year free cash flow projections, deriving an implied share price
Introduction to Corporate Finance Coursera (University of Pennsylvania) — Completed coursework covering valuation fundamentals
