Education and Training

Expected in 05/2028 University of California, Berkeley — Berkeley, CA
Bachelor of Arts Applied Mathematics

Summary

A motivated college student pursuing a Bachelor of Arts in Applied Mathematics with a focus in Actuarial Science, along with a Computer Science Minor. Interested in software development, venture capital, social welfare, and all things start-ups. I have experience in full-stack development, the non-profit space, and event coordination. Currently, I am building a professional communication app for the Department of Children and Families for work optimization purposes.

Skills

- Budget management
- Full-stack development
- UI and UX design
- Proficiency in languages such as Java, Python, and JavaScript
- CAD software mastery
- Customer Relations

Experience

CFO, 05/2024 — Current
IVA Global Aid — Manila, Philipines

- Operated finances for a non-profit welfare program in the Philippines by budgeting donations for donated goods
- Allocated and divided funds for food programs, donations of goods, and logistics
- Engaged with external partners such as local politicians, village chiefs, hospitals, prisons, police forces, and churches to improve the quality of life in struggling communities

Event Coordinator, 01/2024 — 06/2025
Hack Club — Boston, Massachusetts

- Organized event logistics, including venue selection and vendor coordination for Hack Club's Boston branch
- Ran workshops teaching elementary HTML, CSS, and JS for web development and app development
- In charge of sponsor outreach, fundraising, and budgeting for facility rentals, insurance, food, and merchandise

Co-Founder, 12/2024 — 03/2025
Eulerion Technologies — Boston, Massachusetts

- Served as a technical lead for the development of a blackjack cheating detection CV software built in PyTorch
- Accepted into MIT's Sandbox incubator for the Spring 2025 cycle, receiving a $25K SAFE investment.
- Gained customer traction working with the Galaxy Entertainment Group, Vistaland group, and the London Hippodrome

Co-Organizer, 02/2024 — 08/2024
Night Hacks — Boston, Massachusetts

- Ran a collective of online hackathons for high school students in the Boston area in collaboration with Hack Club and the NYU Robotics and Design Team
- Secured sponsors such as Desmos, Stardew Valley, BostonFIG, and other Boston local companies
- Formulated and ran workshops focusing on game development and web development

Teaching Assistant, 01/2024 — 06/2024
Marblehead High School — Marblehead, Massachusetts

- Instructed High School Precalculus and Algebra 1 classrooms
- Helped teachers with lesson plan development, class preparation, scheduling, exam distribution, and personalized student mentoring
- Rewrote hundreds of world problems to be more engaging for a younger audience
