ANIRUDDH MOHAN

(916) 758-1308 · mohan_aniruddh@berkeley.edu · www.linkedin.com/in/aniruddh-mohan-294268265

EDUCATION

UC Berkeley - Management, Entrepreneurship, & Technology Program **Expected June 2029**
Dual Degree: B.S. Bioengineering & B.S. Business Administration
Coursework: BIOENG 10, BIOENG 26, MATH 52, COMPSCI 61A, UGBA 10x, UGBA 196

EXPERIENCE

Massachusetts Institute of Technology, Boston, Massachusetts **July 2022 - Present**
Project Manager & Research Lead
- Designed dog collar wearable, utilizing molded carbon fiber casing and ranged temperature measurement through thermopile, to alert users of high ground temperatures in warm environments (to prevent pets from burning paws)
- Implemented sensory accuracy correcting algorithm and cloud-based multi-user system to enhance reliability
- Granted USPTO Patent (20240423167) and acquired $7500 in grant funding via the Lemelson-MIT Foundation

NASA & California Space Grant Consortium, San Diego, California **May 2024 - Jan. 2025**
Machine Learning and Robotics Intern
- Developed unsupervised classification models and neural networks running real-time regression and inference on live infrasound data acquired via Raspberry Pi 4 and custom built infrasound monitors for seismic event forecasting (quakes)
- Researched viability of using infrasound monitors as a novel method of regulating chemotherapy pre-treatments
- Managed ~$6000 in grant funding and presented deliverable at the 2024 California Space Grant Consortium Conference

City of Hope Medical Center, Los Angeles, California **May 2024 - Sept. 2024**
Biomedical Research Intern
- Engineered CD20 cys-minibody (cMb) protein and analyzed binding efficiency to the CD20 antigen in order to determine viability for novel CD20 targeted breast cancer diagnosis and patient selection methods under ImmunoPET/CT imaging
- Presented findings at the 2024 City of Hope Cancer Research Symposium and awarded a $4500 summer stipend award

NASA Ames Research Center, Mountain View, California **June 2023 - Aug. 2024**
Computational Biology Research Intern
- Analyzed genomic metadata of space-flown drosophila heart tissue via differential gene expression and fast gene set enrichment in order to investigate the risk of microgravity-induced hypertrophic cardiomyopathies in human astronauts
- Presented research at the 2023 NASA GeneLab Conference and returned as an intern mentor during summer 2024/25

LEADERSHIP & COMMUNITY IMPACT

Future Health Professionals Club, Sacramento, California **Aug. 2021 – June 2025**
Chapter President
- Led weekly meetings and discussions surrounding medical topics, dissection labs, suturing, and CPR for 70+ members
- Organized school's first-ever Mental Health Awareness Day and provided wellness resources to 800+ local students
- Took team to the national HOSA competition for the first time in 5+ years & coached team to many state/national wins

Bioengineering Club, Sacramento, California **Aug. 2021 – June 2025**
Project Manager & Communications Lead
- Led biomedical lab activities and provided research experiences to 100+ underserved students at local Title 1 schools
- Collaborated with UC Davis to plan lab tours and career-orientated guest speaker events for high school students
- Managed the NASA GBE and MIT Cre[AT]e team grant projects resulting in 2nd place at the National GBE Conference

AWARDS & ACHIEVEMENTS

- High School Valedictorian and International Baccalaureate Scholar – 4.75 Weighted GPA & IB Diploma Awardee (2025)
- Morton Foundation Scholarship Award Recipient – $2500 funding to pursue a higher level university education (2024)
- 1st Place at the Business Professionals of America National Competition: Virtual Branding and Marketing Event (2023)
- Top ten at the Business Professionals of America National Competition: Start-Up Enterprise Pitch Presentations (2023)
- Recipient of the Optimist International and First Tee Scholarships – $3000 scholarship for higher level education (2023)
- United States Award of Congressional and Senate Recognition – For Special Achievement in Academia & Science (2022)

ADDITIONAL INFORMATION

- Languages: English, Tamil, Spanish – Received California State Seal of Biliteracy for bilingualism in English & Spanish
- Skills: Python, Microsoft Office Suite, Market Research, Literature Review, Genomics, Biological Assays & Cell Culture
- Interests: Golf, Tennis, Pickleball, Poker, Photography (Landscape & Portraits), and Backpacking (Yosemite, Zion, etc.)
