EDUCATION

University of California, Berkeley Expected: May 2029
Economics B.A. | Data Science B.A. | Minor in History ACT: 34 | SAT: 1500 | GPA: 4.0 / 4.0
Relevant Courses: Microeconomics, Macroeconomics, Linear Algebra, Calculus 2, Financial Accounting, Managerial Accounting, Principles of Business, Introduction to Probability and Statistics, Business Law, Introduction to Python, Introduction to Java

PROFESSIONAL EXPERIENCE

Incoming Technology Risk Consultant June 2027 – August 2027
Ernst & Young (EY)

Quantitative Economics Research Assistant July 2025 – Present
Occidental College

- Research Assistant for an economics working paper analyzing hiring practices of federal law clerks — tasked with end-to-end data collection, dataset construction, and empirical analysis across the study's full multi-year clerk sample
- Built and optimized Python image-scraping pipeline using Computer Vision (OpenCV, YOLO, Deepface) libraries to collect and analyze photos for 15,000+ federal law clerks, achieving 85% identification accuracy against a manually verified sample
- Created Probit and OLS regression models to predict and assign weights to scraped images to predict image-match probability, integrating fitted scores into the identification pipeline to identify facial characteristics for 80,000+ candidate images

Business Development Intern June 2026 – August 2026
Silicon Valley Chamber of Commerce

- Helped generate $50,000 in new membership and sponsorship revenue by prospecting, cold-calling, and pitching 40+ local businesses on Chamber benefits and event partnerships for FIFA World Cup 2026 matches hosted at Levi's Stadium
- Coordinated 3 business networking events drawing 200+ local executives by managing venue logistics, securing 7 corporate sponsors, and running targeted email outreach campaigns that lifted RSVP rates by 25% over prior Chamber events
- Contributed to a full-stack, searchable member directory (Python/Flask, SQL, JavaScript) that shared 500+ member records, letting chamber businesses search for partners by industry and service offering to fill operational and vendor needs

Venture Capital Summer Analyst June 2025 – August 2025
PadUp Ventures

- Conducted due diligence on 40 early-stage startups across SaaS, fintech, and healthtech — spanning market sizing, competitive positioning, and founder diligence — to inform $5M in potential pre-seed and seed-stage investments for the fund
- Developed Excel financial models using the Berkus method and unit economics for 15+ startups, identifying key revenue drivers and cost structures to assess investment readiness in monthly reports presented to the fund's limited partners
- Reviewed cap tables, valuations, and deal terms for startups raising between $50K and $2M, analyzing equity stakes and dilution scenarios across financing rounds to support the team's final investment decisions

Tax Preparer December 2025 – Present
VITA/TCE Program

- Assisted over 50+ low-to-moderate income taxpayers, seniors, and non-English speakers in preparing and filing federal and state tax returns, achieving a 98% accuracy rate verified through IRS-standard quality review checks on completed returns
- Collaborated with a team of 25+ volunteers and site coordinators to streamline intake and interview processes, reducing average client wait times by 20% compared to the previous season with advanced pre-appointment screening processes
- Corrected common filing errors (missing social security numbers, incorrect filing statuses, and signature issues) before final submission, reducing federal and state e-file rejections by 15% across the site's full-season return volume

PROJECTS

Stock Pitch Contest Finalist
U.C. Berkeley

- Placed top 3 utilizing comparable company analysis and discounted cash flow (DCF) valuation techniques to present a PowerPoint-based short investment recommendation on CAVA Group Inc. (NYSE: CAVA) to a judging panel of finance professionals
- Built a 5-year DCF model in Excel with a unit-growth and AUV-driven revenue build, sensitizing WACC and terminal growth assumptions to reach a base-case price target implying 30% downside to the prevailing share price at the time of the pitch
- Benchmarked CAVA against fast-casual peers (Chipotle, Sweetgreen, Wingstop) on EV/EBITDA and EV/Sales multiples, arguing the market was overpricing CAVA's unit expansion runway and same-store sales growth relative to margin fundamentals

SKILLS & INTERESTS

Languages / Developer Tools: Python, SQL, Java, HTML/CSS, Golang, JavaScript, C, Snowflake, Azure, RISC-V
Interests: Baseball, Fantasy Football, Snorkeling, Backpacking, Financial Literacy
