EDUCATION

University of California, Berkeley Aug 2026 - May 2027
Bachelors of Science, Electrical Engineering and Computer Science
- Artifical Intelligence, Probability and Random Processes, Financial Economics, Asset and Portfolio Pricing

Nanyang Technological University, Singapore Aug 2024 - May 2028
Bachelor of Engineering, Computer Engineering, CGPA: 4.80/5.00
- Honours (Highest Distinction)
- Awarded Bond-Free Scholarship (Full Scholarship)
- Courses: Data Structures and Algorithms, Object Oriented Programming, Enterprise Strategy, Managerial Accounting

WORK EXPERIENCE

Nomura Research Institute May 2026 - Aug 2026
Business Analyst, Strategy and Management Consultant
- Streamlined a manual soft-commodity industry research and reporting process by building Python workflows to extract government data into standardised client-ready Excel workbooks for market monitoring.
- Assessed an investment case for a 6,000-unit, ¥30–40M/unit HCMC residential development by reconciling official income statistics with wealth and alternative-capital data to redefine addressable buyer pool.
- Mapped healthcare investment ecosystem across Malaysia, Singapore and Thailand, profiling 10 VCs/CVCs by investment thesis, stage, portfolio, deal activity and value-creation model to identify gaps in life-sciences capital.

Deloitte Nov 2024 - May 2026
Strategy and Operations Intern
- Built financial models for loan amortisation, partner-level financial impact, and return sensitivities across multiple capital structures for a $222M development project, facilitating stakeholder decisions on funding strategy
- Improved operations management and cross-campus reporting through a multi-source dashboard across Deloitte campuses, enhancing leadership visibility into programme performance and unlocking ~US$60K in annual savings.
- Constructed a linear optimisation model (Python, PuLP) to allocate 80+ programs across campuses, simulating 5,000+ participants to minimise net losses and optimise cross-entity profitability

CO-CURRICULAR ACTIVITIES

Protege Ventures Aug 2025 - Present
Investment Principal
- Established strategic partnerships with universities, polytechnics and global student venture firms to expand Protégé Ventures' sourcing network, recruitment reach, and cross-border venture ecosystem access.
- Led analysts in Venture Capital training and development of investment memos and pitch-book style materials by synthesising financial data, market trends, due diligence findings, and strategic risks to facilitate investment decisions.
- Built financial models projecting revenue, cash flow, valuation scenarios, and key financial metrics for early-stage Southeast Asian startups to assess investment risk-reward profiles.

PROJECTS

Dutum Korean BBQ — Loyalty Strategy & DX
- Advised a Korean BBQ restaurant owner on customer retention and loyalty strategy, designing a four-visit conversion funnel using return incentives, tiered membership, and exclusive-menu access.
- Developed a mobile-first Korean BBQ ordering and loyalty platform with Next.js, React, TypeScript, and Cloudflare D1/R2, featuring table-based guest checkout, secure customer authentication, tiered rewards, profiles, notifications, and server-authoritative pricing

SKILLS

- Technical: Python, SQL, R, Verilog, C, Excel (Advanced)
- Investment and Capital Markets: Financial Modelling, Financial Analysis, Financial Statement Analysis, Equity Research, Investment Valuation, Industry Research, Investment Analysis, Financial Metrics, Capital IQ, Tracxn
- Languages: English, Hindi, Kannada, Chinese (Elementary)
