Aviram Jithesh

Fremont, CA | avijithesh@berkeley.edu | 510-513-9162 | linkedin.com/in/aviram-jithesh

Education

Washington High School, High School Diploma, *Salutatorian* Aug 2021 – June 2025

- **GPA:** 3.97/4.0 (UW)
- **Relevant Coursework:** AP Calculus BC, AP Physics C, AP Computer Science A, Multivariable Calculus, Linear Algebra, AP Statistics, Web Design

University of California, Berkeley, B.A. Applied Mathematics | Intended Double Major in Data Science Aug 2025 – Present

- **Coursework:** Linear Algebra & Differential Equations, Introduction to Data Science, Introduction to General Astronomy

Experience & Leadership

District Vice President of Career Development, DECA – NorCal, CA June 2024 – April 2025

- Nationally represented 1000+ members across 15 high schools
- Planned and hosted regional NorCal Career Development Conference, which had a record-high attendance
- Helped execute inter-school competitions by judging competitors + organizing setups
- Conducted workshops and created resources to enhance district-wide competitive performance and knowledge in marketing, finance, hospitality, and management; led monthly Champ Camps (mentorship program)

Researcher & Group Coordinator, ASDRP – Fremont, CA Jan 2024 – July 2024

- Worked with a team of student researchers on a computational physics research project, where we incorporated machine learning to understand physics chaos theory
- Created calculus-based models that mimicked multi-pendulum chaotic systems
- Coordinated group meetings w/ research professor, mapped out project goals, and led mathematical research

Operations Research & Development Analyst, Nature's Organic Ice Cream – Fremont, CA Oct 2023 – March 2024

- Analyzed employee operation, marketing strategy, and popular products
- Conducted surveys to determine satisfaction levels of products and service
- Turned findings from analysis and surveys into an analytical report of costs and ROI of new strategies my team came up with (later implemented) to elevate store traffic

Robot Open Autonomous Racing Academy, UC Berkeley – Berkeley, CA July 2024

- Studied applications of machine learning programs, neural networks, and reinforcement learning into the autonomous driving field, as well as GPT algorithms & PID controllers
- Built programs to apply to autonomous racing simulations; worked with team to redesign and improve previous competition code
- Improved & applied knowledge of Python frameworks

Awards

3x DECA International Career Development Conference Winner (2nd out of 500) in Virtual Business Challenge Accounting 2023, 2024, 2025

RCB Hackathon Powered by Berkeley HAAS; Placed Top 10 June 2024

1st for Franchise Business Plan at NorCal DECA Conference Jan 2024
