EDUCATION

University of California, Berkeley Expected May 2030
B.A. Statistics | College of Computing, Data Science, and Society

Dougherty Valley High School | San Ramon, CA May 2026
GPA: 3.98(4.63)/4.00 unweighted | **SAT:** 1560 (790 Math)

ANALYTICAL AND ENTREPRENEURIAL EXPERIENCE

Rentora Mar 2024 – Dec 2025
Machine Learning Intern

- Built a rent-prediction system for 99,407 apartment listings, translating property, location, amenity, and pet-policy data into an API-ready product capability.
- Presented technical findings to university mentors, contributing to Rentora's receipt of a $10,000 UC Santa Cruz startup grant.

Independent Research Jun 2025 – Dec 2025
Distributed ML for Real Estate Forecasting

- Structured and executed a study comparing centralized, federated, and decentralized approaches across 1.5M+ housing listings and 82 regional clusters.
- Synthesized the methodology and findings in a full-length public preprint (DOI).

I-Start Valley Jun 2024 – Dec 2025
Entrepreneurship Internship Team Lead | Youth Executive Council Senior Director

- Led a four-person team in developing Polylingua, a language-learning startup, through a competitive innovation program focused on entrepreneurial ecosystems.
- Oversaw program development and youth engagement for a global entrepreneurship nonprofit through the Youth Executive Council.

Palo Alto Veterans Affairs Hospital | Livermore, CA Jun 2023 – Aug 2023
Information Technology Intern

- Shadowed senior IT specialists and learned secure data-management practices and government-compliance standards.

LEADERSHIP EXPERIENCE

Dougherty Valley High School Aug 2022 – May 2026
Varsity Football Team Captain | Data Science & Sports Club | Intelligent Agriculture Club

- Selected as team captain during a four-year varsity career; coordinated teammates, led drills and offseason strength-and-conditioning sessions, and reinforced accountability.
- Directed sports-analytics projects, managed resources for sustainable-agriculture research, and founded a tutoring program supporting teammates' academic eligibility.

MindMasters Learning Jan 2023 – Dec 2025
Co-Founder and Math Tutor

- Co-founded a tutoring venture delivering math, coding, and business instruction to 50+ students.

RESEARCH AND COLLABORATION

UC Santa Cruz Science Internship Program Jun 2025 – Dec 2025
Research Intern | STRUDEL: Lightweight Decentralized Deep Learning

- Analyzed how five communication-network structures influence connectivity and information flow in decentralized learning, including a quantitative 25-client topology comparison.
- Collaborated with a PhD mentor and three-person research team and helped translate methods, experimental results, and architecture comparisons into a manuscript.

SKILLS

Analysis: Python, Java, SQL, R, statistical analysis, experimental design, technical communication
