EDUCATION

University of California, Berkeley **May 2030**
B.A. Economics & B.A. Analytics (Conc. in Industrial and Business Systems) | Minor in Geospatial Information Science and Technology
Coursework: DATA C8 (Foundations of Data Science), DATA C88C (Computational Structures in Data Science), MATH 54 (Linear Algebra & Differential Equations), GEOG C188 (Geographic Information Systems)

Chaffey College (Dual Enrollment) **May 2026**
A.A. Law, Public Policy, & Society; A.A. Political Economy; A.A. Economics; A.S. Accounting; A.S. Business Administration
Coursework: ACCTG 1A (Financial Accounting), ACCTG 1B (Managerial Accounting), MATH 75 (Multivariable Calculus)

PROFESSIONAL EXPERIENCE

Professional Service Intern | *CliftonLarsonAllen LLP* **June 2026 – July 2026**
- Rotated across **7 professional-service lines**, including Wealth, Assurance, Forensics, CAAS, and Digital, gaining exposure to investment, accounting, risk, and advisory frameworks.
- Analyzed nonprofit financial performance and **quantified social impact** to develop an investment recommendation for the **OC Bar Association**; CLA subsequently **invested** in the recommended organization.
- Built a **three-statement financial model** and completed **2 mock financial-statement audits**, applying accounting and financial analysis to assess performance, reporting accuracy, and internal controls.
- Completed **5+ tax** forms, including W-2, W-4, I-9, and Form 1040, applying foundational tax and accounting concepts.

Small Business Finance & Lending Intern | *AMPAC Business Capital* **Mar 2026 – May 2026**
- Screened **20+ small businesses** across CA, NV, and AZ for SBA-backed financing using revenue, credit, and collateral criteria to support lending decisions.
- Managed **15 loan files** and intake calls, tracking documentation, insurance records, and pipeline status across the lending process.
- Conducted outreach to **30+ businesses** to expand the lending pipeline and connect qualified applicants with SBA financing programs.
- Performed **15 hours of payroll accounting in Oracle**, gaining hands-on exposure to small-business accounting.

Legislative District Operations Intern | *Office of Assemblymember John Harabedian* **Jan 2026 – May 2026**
- Researched and responded to **20+ constituent cases** related to insurance, housing redevelopment, and disaster recovery.
- Synthesized constituent concerns across **12+ public meetings** to inform district-level policy responses following the Eaton fires.

Economic & Market Research Analyst | *Rancho Cucamonga Chamber of Commerce* **Aug 2025 – Dec 2025**
- Built financial feasibility model for **$150K Chamber visitor center concept**, analyzing cost structure, demand, and revenue drivers.
- Performed **break-even/sensitivity analysis** using regional benchmarks to assess sustainability under multiple demand scenarios.
- **Benchmarked comparable destinations**, regional tourism patterns, and visitor demand to identify **market gaps** and support an independent recommendation on the project's feasibility.

LEADERSHIP EXPERIENCE

Outreach & Impact Lead | *FIRST Tech Challenge Robotics* **May 2023 – May 2026**
- Drove local STEM initiatives reaching **3,500 local participants** and a social media strategy generating **1M+ impressions.**
- Coordinated district **STEAM Fair outreach reaching ~2,100 students**, expanding awareness of robotics and STEM opportunities across district schools.
- Secured **$27K+** in sponsorships and grants by leading **sponsor pitches**, **district presentations**, and board/administrative briefings.
- Advised on the allocation of **$800K in district program funds** to launch and mentor **14 robotics teams** across the Chaffey Joint Union High School District, expanding STEM opportunities to **300+ students**.
- Represented student perspectives on regional STEM investment as a **panelist for the California K-16 Education Collaborative.**

PROJECTS

Feasibility Study | *Proposed Hyperscale AI Data Center Development* 🔗 **Apr 2025**
- Evaluated feasibility of a proposed 100 MW hyperscale AI data center through **mixed-methods analysis** integrating grid infrastructure, geospatial, and economic constraints using **OpenDSS** and **QGIS**.
- Developed a decision framework using a **weighted decision matrix** and **analytic hierarchy process**, synthesizing technical and economic tradeoffs into an 82/100 feasibility score and conditional recommendation (pending community sentiment analysis).
- **Modeled** regional economic impact using **USEEIO** and normalized benchmarks, estimating **5,000 construction job-years**, **150 permanent roles**, and **$173M–$371M in construction output**.

HONORS, SKILLS, & INTERESTS

- *Honors*: FBLA 2x International Finalist (Management Info Systems & Business Management) | CHSSA State Championship – Ranked 15th in CA (Public Forum Debate) | AmeriCorps Presidential Volunteer Service Award (Gold Tier)
- *Skills:* Financial Modeling, Market Research, Sensitivity Analysis, Break-Even Analysis, Cost-Benefit Analysis, Microsoft Excel | Research Synthesis, Problem Solving, Written and Verbal Communication, Presentation, Team Collaboration
- *Interests:* Sustainable Infrastructure, Rock Climbing, Motorcycles, Volleyball, Music (Marias, Radiohead, Bruno Major), Trying Food :p
