ADAM CHESTOVALIEV

adam.c@berkeley.edu | Phone: +1 (510) 926 7996

EDUCATION

UC Berkeley - B.A Data Science and Economics | 2026 - 2030
Stanford Online High School (took advanced coursework online) | 2022 – 2026
International School of Belgrade | 2022 - 2026

INVESTING EXPERIENCE

Investment Club - Competition Team Member

- Designed and pitched a client-tailored investment strategy and portfolio; placed top 50 of 2,000+ teams by returns at the Wharton Investment Competition and co-authored the final strategy report.
- Co-led a portfolio to 3rd place of 100+ teams in the Husky Investment Competition, generating a 15% return in six weeks by building an AI infra portfolio (Microsoft, Nvidia, ASML, Coinbase, etc).
- Mentored new teammates and attended sessions on financial modeling, bonds, and guest speaker talks.

RESEARCH EXPERIENCE

SIP Researcher, Applied AI / Computer Vision Lab - UC Santa Cruz - Dr. Golam Md Muktadir and Sathyaprakash Narayanan | 2024 - 2026

- Started through UCSC's Summer Internship Program ($11,185 in stipends and tuition waivers); have continued on as an ongoing researcher in the lab.
- Contributed to the development of Sconce, a now publicly available Python model-compression package combining pruning and quantization to reduce compute, parameter count, and memory usage while improving latency on Computer Vision models (ResNet, VGG, GoogLeNet/Inception); tracked 4 key performance metrics across different compression orderings.
- Helped build PedAnalyze, a web-based annotation tool and a large-scale dangerous-pedestrian-behavior dataset (India/Bangladesh); defined 7 novel behavioral archetypes, contributed annotations, with potential applications in autonomous driving.

HS LEADERSHIP & ACTIVITIES

Model UN Club - Co-President

- Co-led a 20+ member club, chairing weekly meetings on resolution writing, speech and debate, and parliamentary procedure; planned logistics and programming for a 30-student delegation to NAIMUN (Washington, D.C.) and a 20-student delegation to GCMUN (New York City), winning Best Medium-Sized Delegation.

AI Society - President

- Led meetings on topics including ANNs, binary trees, and computer vision; ran coding exercises/projects
- Organized school-wide guest speaker events (Sentience Institute co-founder Jacy Reese Anthis; UCSC researcher/Google engineer Golam Muktadir).

FRC Robotics, Team 4014 (Pixelators) / Eurobot Team (Serbia) - Treasurer & Programming | 2022 – 2025

- Raised a $16K budget as treasurer, managed accounting, purchasing of new equipment, and financial planning.
- Secured funding and grants from Qualcomm and Haas Automation;
- Contributed to a VSLAM camera-navigation system and CAD-designed the holonomic drivetrain (4-wheel, omnidirectional, 15 mph carrying 100 lb).

Quiz Bowl Club - Co-leader

- Led weekly practice sessions, reading questions and moderating, presenting strategy, and onboarding new members to rules and gameplay.

HONORS & AWARDS

- GCMUN Honorable Mention & Best Medium Delegation · NAIMUN Verbal Commendation
- Wharton Investment Competition (top 50 of 2,000 by returns)
- Husky Investment Competition 3rd place
- Quiz Bowl: West Coast Championship 6th place, Nationals Qualifier
- FRC Robotics Judges' Award · Eurobot 3rd place in Balkan regionals

LANGUAGES & INTERESTS

- Languages: English & Macedonian (native), Serbian & Korean (fluent).
- Interests:
  - Hedge fund strategy, macroinvesting, bonds, currencies, economic history and geopolitics.
  - AI/semiconductor supply chain end-to-end, EUV lithography, components & tooling, memory, logic, fabs, chip design, chemicals, and broader technology markets.
