EDUCATION

University of California, Berkeley, CA - *B.A.,* ***Data Science & Applied Math & Computer Science***

- *Relevant Coursework:* CS C88C, Data C8, CS61B, Math 54, Data 100, Math128A| Clubs: Sports Business and Analytics (Projects Team), **Golden Records Music (Marketing** Lead),

San Mateo Community College District, San Mateo CA - *Concurrent Enrollment*

- PSYC 100, PSYC 330, ASTR 100, HSCI 100, COMM 110, COMM 130, MATH 115, MATH 120, MATH 130, MATH 200, CIS 110, CIS 117, CIS 121, CIS 254, CIS 255, CIS 256, CIS 501, BIOL 310, EMC. 425

Carlmont High School, Belmont, CA - *9-12th* Cumulative GPA Unweighted/Weighted : 3.92/4.3

- EC's: Varsity Baseball | Robotics | Fav Courses: AP Bio, Multivariable Calc, AP European History

EXPERIENCE

AI/ML Implementation Intern - ***Linea Energy , San Francisco, CA*** *Aug 2025 - Current*

- Developed a multi agent system to process Leases and NDA's; Helped streamline the negotiation process; Created an AI decking application and deployed to the cloud using Azure. Created a GoogleADK multi agent system and created custom evaluation sets based on the company data
- Deployed an MCP server and connected to Microsoft's Graph API, currently developing a discrete knowledge database and an Agentic RAG pipeline to help with deal negotiation and risk assessment
- Integrated an FP&A tool into financial workflows optimizing and centralizing financial data

Cofounder - ***ClaraTear and MyStent, San Francisco, CA*** *Aug 2024 - Jan 2025*

- **ClaraTear:** Extracting and analyzing tear proteins and exosomes to predict diseases with tear samples

Popcorn AI: ***Director of Marketing, Intern, San Francisco CA*** *Sept 2024 – Current*

- Using GPT-4o to optimize user matching, analyzing large-scale student datasets for targeted matches.

Full Stack Developer, AI Engineer - ***Hidden Underground, San Carlos, CA*** *Aug 2024 - October 2024*

- Built an API that connects to OpenAI's GPT-4 and processes business logos for explicit content.
- Used JavaScript to integrate into the company's website and Azure to deploy into the cloud
- Built a sample React.js app to build a test webpage for the API to test on client data.

Data Scientist - ***E-Worlds Enterprise Solutions, Honolulu HI*** *June 2024 - August 2024*

- Developed a Generative AI tool using FastAPI for the Hawaiian Government that processed over 1 million legal documents in the form of pdfs for requested/custom keywords specified by the govt.
- Used prompt engineering to communicate with Gemini, and get specific info on signatures, names, dates and more. Developed Python Web Application with StreamLit and demoed to the exec team.

Research Intern- ***Stanford Medicine, Neurosurgery, Palo Alto CA*** *Jul 2022 - Aug 2022*

- Researched Virtual Reality in the context of medicine, military and education; presented to program alumni; Later delivered TedX talk: "How Virtual Reality Can Save Lives" which used this research and applied it to a broader more interdisciplinary context.

PROJECTS

Tampa Bay Rays - Sports Business and Analytics Group at Berkeley *Sep 2024 - Dec 2024*

- Developed polynomial regression model (Python/scikit-learn) evaluating MLB draft pick value with R^2=0.87 on historical data, working with product manager to develop a frontend tool/application

Kaggle ISIC - Skin Cancer Detection with 3D-TBP Competition *July 2024 - Sep 2024*

- Used Keras to build a deep learning model that can identify skin cancers and training the model on images on 1.35 GB of training data. Used PyTorch CNN with EfficientNet-B4 architecture

Chain of Thought Agent Training Deep Learning Dashboard *Jul 2025 - Present*

- Recreated a research paper on agent training programs and optimized for DFS, A*, Prims

Skills: Java/Python/SQL/Pandas/JavaScript/UNIX/LINUX/AWS Cloud Architecture/GoogleCloud/Azure/Spark/Swift/Golang /VertexAI/React/Adobe/Blender/Unity/ Keras/Multivariable Calculus/Linear Algebra/Flutter Flow/Bubble.io/Streamlit/Google Cloud/Machine Learning/Azure/Node.js/Docker/Adobe Premiere Pro/Adobe Lightroom/Adobe Photoshop/Data Structures/PyTorch/Figma/SQL/Big Query/Git/MATLAB/Golang/MongoDB/TensorFlow, Keras, Scikit-learn, CoreML, Google ADK/Kubernetes/Docker/RAG/Fine tuning LLMS/Three.js/Typescript/Firebase Studio/Tableau/Matlab/RL

Awards & Certifications

Dean's List at San Mateo College (2020 - 2021) | Math Merit for Achievement Carlmont (2021 - 2024)| National Spanish Exam (2023) |Vex IQ Robotics State Champions | Taekwondo Black Belt

Languages | Spanish(Conversationally Fluent) | Telugu(Native) | Hindi(Beginner)

Leadership | Research Club President, Varsity Baseball Captain, Robotics Media Lead

Interests | Film, Stocks, Poker, Quant, Graffiti, Guitar/Cello, MLB/NBA/NFL
