### SOUTH CHINA UNIVERSITY OF TECHNOLOGY | Research Assistant

Jan 2023 – May 2023 | Guangzhou,China

- Optimized data pipeline with PostgreSQL server handles over 30 experiment cases each day.
- Set up Apache Kafka to stream data onto researchers' computers.
- Built simply statistical model with NumPy to quickly spot anomalies in experiment cases.

## PROJECTS

Auto-grader for AP Computer Science A | Developer

Jan 2024 – June 2024 | Hybrid

- Set up a lightweight server that handles 50+ requests each day with Python, using Django to manage submission and grading.
- Built an interactive user interface with feedback and dashboard features using React.
- Implemented Docker for isolated grading environment containers.
- Integrated GitHub API for students demanding version control features
- Integrated school website API to enter and publish homework grades and send feedback to students.

## EDUCATION

### UNIVERSITY OF CALIFORNIA, BERKELEY

Bachelor of Arts in Cognitive Science and Data Science

Expected Jan 2028 | Berkeley, CA

## SKILLS

### TECHNICAL

Python • Java • R • SQL • JavaScript
Git/Github • Linux • Docker
AI • LangChain • Prompt Engineering

### COMMUNICATION

Pitch Deck Creation • Technical Writing
Bilingual Cross-Cultural Communication

### MARKETING

Understanding of LLM, CV, and Robotics
SWOT Analysis • Trend Identification
GTM Strategy • Project Management

## COURSEWORK

Artificial Intelligence
Data Analysis
Software Engineering
Calculus I-IV
Bioengineering
Advanced Writing
Entrepreneurship

## SOCIETIES

Cal Triathlon
Regional Head @ Partnership for Safe Medicine
Entrepreneur Hub @ Berkeley
