WORK EXPERIENCE

BetterWealth – Private Wealth Management Intern **May 2023 - Nov 2023**
Jun 2025 - Aug 2025

- Assisted in the evaluation and acquisition of $60 million in new assets, contributing to a 4% portfolio growth by conducting detailed financial analysis and ensuring informed decision-making.
- Led the data migration of 8 years of financial records across institutions, maintaining accuracy and improving efficiency during the acquisition process.
- Partnered with finance, operations, and compliance teams to strengthen risk management protocols, identifying gaps and mitigating potential threats.
- Created detailed reports and valuation models that offered actionable insights, enhancing client portfolio performance and driving data-driven decisions.
- In the Summer of 2025, engaged in a project around data transformation and industry data standards.

Redwood Estates Services Association – Lifeguard **May 2022 - Sep 2023**

- Applied critical thinking and emergency response skills to ensure safety and maintain Red Cross standards during high-pressure scenarios.
- Managed pool operations and maintained a clean, organized environment, ensuring a positive customer experience for all patrons.

Tribal Wisdom Academy – Mentor **May 2021 - Aug 2022**

- Organized group activities for students aged 6-12, and managed logistics of daily schedules and special events. Fostered a positive and collaborative atmosphere by promoting camaraderie between staff and students.

LEADERSHIP EXPERIENCE

Stanford Science Groups – Project Manager **Jan 2024 - May 2024**

- Managed a research project analyzing the impact of quantum physics on superconductor efficiency, applying advanced data analysis techniques to generate actionable recommendations.
- Directed cross-functional collaboration between data scientists and research teams, fostering a high-performing environment and ensuring project milestones were met.

Global Citizenship Alliance – Scholar **Jun 2024**

- Collaborated with an international team at the Salzburg Global Seminar in Austria, developing innovative solutions to address climate change refugee challenges.
- Analyzed and defined responsibilities of private corporations and governments in supporting displaced populations, resulting in a comprehensive action plan adopted by peer working groups.
