EDUCATION

University of California, Berkeley **Aug. 2025 – May 2027**
Bachelor of Arts, Economics; Bachelor of Arts, Data Science *Berkeley, CA*

- **Relevant Extracurricular:** CalHacks 2025, Haas Case Competition, Google Case Competition

Foothill College **Jan. 2023 – Jun. 2025**
Associate of Science, Business Administration; Associate of Arts, Economics *Los Altos Hills, CA*

- **GPA: 3.95/4.0**; Honors Scholar; 10x Dean's List; Academic Excellence Presidential Award; Mellon Scholars
- **Relevant Coursework:** Multivariable Calculus; Linear Algebra; Statistics; Financial Accounting; Economics
- **Relevant Leadership:** Student Council Club Coordinator; Economics Club Co-President; Economics Tutor

WORK EXPERIENCE

Stanford University Graduate School of Business **Jun. 2025 – Present**
Research Assistant *Stanford, CA*

- Researched behavioral economics under PhD Simon Huang, examining how framing (choosing vs. rejecting) influences consumer responses to product pros and cons, impacting pricing and product selection decisions.
- Conducted comprehensive literature synthesis of 100+ publications on psychological mechanisms on compatibility principle and regulatory fit inform pricing and marketing strategy for corporate application.

Stanford University Institute for Research Social Science **Sep. 2024 – Jun. 2025**
Research Assistant *Stanford, CA*

- Devised and documented an end-to-end data collection strategy, then built a Python scraper and validator that extracted and structured over 1200+ DEI files from 150 universities, reducing manual preparation time by 80%.
- Conceptualized and independently implemented a full-stack research pipeline that scraped and organized more than 4,632+ national think tank articles, enabling sentiment and policy trend analysis.
- Diagnosed and filled a methodology gap by reverse-engineering research objectives, designing a scalable scraping framework with built-in sorting, validation, and error handling.
- Developed a reusable CSV export system, now permanently used in large-scale research at Stanford's Starks Lab.

Schreiber Foods **Jun. 2025 – Present**
Operational Management Extern *Remote*

- Created and led a student-driven food waste consulting project, managing a team of over 4+ student consultants in the development of a comprehensive food recovery system for a local grocery store.
- Applied cost-benefit modeling and stakeholder mapping to develop a pilot redistribution program that diverted over 500 pounds of edible food per week to community shelters and food banks, improved food waste by 15%.
- Compiled a comprehensive synthesis report on waste reduction strategies, known as the Zero-Waste Strategy.

Foothill College **Oct. 2023 – May. 2024**
Department of Economics, Economics Tutor *Los Altos Hills, CA*

- Provided personalized tutoring to support adult learners struggling with macroeconomics and microeconomics concepts, including monetary policy, economic growth, inflation, and real-life personal finance applications.
- organized and facilitated study groups for over 10+ EOPS (Extended Opportunity Programs and Services) participants, contributing to a collective 30% improvement in average exam scores among group members.

SKILLS & INTERESTS

- **Core Skills:** Problem Solving; Project Planning; Factual Analysis; Market Research; Time Management
- **Technical Skills:** Microsoft Office (Excel), Python, R, SQL, MATLAB, Pandas, Stata, Web Scraping, Java
- **Interests:** Yoga Master-Yogi; Wine Tasting; Rock Climbing (Level 11); 2x CrossCounty Road Trip; Weightlifting
