Jack Spottiswood

spottiswood@berkeley.edu | linkedin.com/in/Jack-Spottiswood | (650) 759-5955

Education

University of California, Berkeley College of Engineering Aug 2025 – May 2029
- B.S. in Industrial Engineering and Operations Research, intended minor in Data Science

Relevant Course Work: Intro to Computer Programming and Numerical Methods, Calc II, Multivariable Calc, Linear Algebra, Intro to Probability and Statistics, Probability and Risk Analysis for Engin, Intro to Quant Finance
Clubs/Societies: Institute of Industrial and Systems Engineers, Poker @ Berkeley

Experience

Investment Analyst, Alan Axelrod Investments — Miami, Fl July 2023 – Aug 2023
- Conducted buy-side research on Jack in the Box and Prestige Consumer Healthcare through earnings calls, site visits, and detailed financial analysis including market and competitor evaluation.
- Built detailed DCF models and applied valuation metrics like EV/EBITDA and P/E ratios, incorporating scenario analysis to assess intrinsic company value and growth potential.
- Authored a buy-side report recommending a short position on Jack in the Box, which declined 60%, showcasing strong analytical skills and effective market insight.

Prompt Engineering Intern, Jerry.AI — Remote June 2024 – Aug 2024
- Designed and tested advanced prompts for a Generative AI voice and chat agent, enabling automation of car insurance First Notice of Loss claims and reducing manual processing time by reducing escalation cases
- Applied strategies including Chain of Thought, ReAct, and routing & response agent infrastructure, boosting agent accuracy by 5% and improving customer experience
- Proposed saving agent data incrementally in JSON format throughout the claim process, reducing hallucinations

Researcher– Microplastic Identification Using AI-Driven Image Segmentation and GAN-Generated Ecological Context Oct 27, 2024
arXiv preprint
Alex Dils, David Raymond, **Jack Spottiswood**, Christoph Sadée, et. al.
- Developed a deep learning segmentation model to identify microplastics in water samples, significantly improving detection accuracy from 0.82 to 0.91 F1-score by augmenting training data with GAN-generated synthetic samples. This reduced reliance on costly expert analysis and enhanced the scalability and precision of environmental monitoring efforts.

Leadership

Founder & President, Sequoia Investment Club — Redwood City, CA Aug 2022 – June 2025
- Founded the club to teach investing fundamentals and foster financial literacy among peers
- Recruited 30 members and organized guest speakers from finance and investing backgrounds
- Delivered presentations on equity trading and personal finance, guiding under-resourced classmates in opening their first investment accounts

Volunteer & School Ambassador, AYSO EPIC — Redwood City, CA Sep 2021 – Apr 2025
- Paired with physically and mentally disabled children to teach them soccer
- Marketed the program at Sequoia High School through newsletters, word of mouth, and events - increasing school engagement by 100%.

Finance Officer, Institute of Industrial and Systems Engineers — Berkeley, CA Aug 2025 – Current
- Lead sponsorship initiative to fund raise and create industry connections for the institute.

Skills

Languages: Native English, limited Working Proficiency Spanish
Programming Languages: Python(PyTorch, SciKit-learn, Numpy, Matplotlib), C++, C, JS, Java, Matlab, SQL
Software & Tools: Excel, Powerpoint, Microsoft Words, Google Docs/Sheets, Jupyter Notebook, GitHub, Visual Studio, Prompt Engineering, Linear Programming, LaTeX
Finance: Financial Modeling, Valuation Techniques, Budgeting, Technical Analysis
