Kaden Ma

EDUCATION

University of California, Berkeley | **3.94 GPA** May 2029
B.S. Business Administration Berkeley, CA
B.A. Data Science
Coursework: Discrete Math, Data Science Foundations, Data Structures, Computer Architecture, Foundations of Business

EXPERIENCE

Berkeley SkyDeck | *Program Operations Intern* Sep 2025 - Present
- Intern at Berkeley SkyDeck, a leading startup accelerator with $85M AUM.
- Automated internal workflows using Google Apps Script, reducing email volume by 20% and saving program coordinators 5+ hours a week by building dynamic sign-up forms and automated founder-advisor matching.
- Assist with on-site logistics for SkyDeck-hosted events such as founder mixers and demo day for startups.

Google | *Corporate Engineering Apprenticeship* July - Sept 2023
- Worked in a team of 4 to create and pitch an AI-based financial solution for Google, designed to analyze balance sheets and simplify accounting. Created a minimal viable product and established a growth objective + marketing plan.
- Learned to streamline business functions and operations using tech. Gained experience with product management, business intelligence, and AI.

PROJECTS

Bayesian Analysis of Dividend-Capture Returns | *Research Publication* Summer 2025
- Analyzed stock market data from 1990-2025 to determine the profitability of dividend-capture trading strategies over 35 years, and the factors that impacted returns. Research published at *ssrn.com/abstract=5473306*
- Built Bayesian linear regression models in R, using No-U-Turn Sampling through the rstanarm package.

Stock Market Pattern Recognition with Java | *Technical Project* Summer 2024
- Designed an algorithm to conduct technical analysis on stocks in the S&P 500 and identify bullish chart patterns.
- Used the Selenium package to scrape daily stock data from Yahoo Finance, and wrote a program in Java to analyze local minima and maxima to identify patterns.

VOLUNTEERING

The Silicon Valley Investment Bowl | *Founder, Lead Director* Jun 2023 - Oct 2024
- Scaled into California's largest in-person investment competition within 2 years, reaching 100+ attendees.
- Led a 6-person organizing team, raised $800+ from sponsors, planned event logistics, recruited judges, etc.

Los Altos Hacks | *Organizer* Nov 2022 - Apr 2024
- Organized Los Altos Hacks VII and VIII, to date the largest high school hackathons in the US with 425+ attendees at each 24-hour event. Backed by sponsors including Google, 8VC, Juniper, Vercel, etc.
- Managed event logistics, developed 20+ sponsor leads, sourced 30+ mentors and judges. Event raised $50,000 in total.

SKILLS & AWARDS

- **Technical Skills:** Python, Java, R, Javascript, Excel, Microsoft Office, Google Suite
- **SAT:** 1560 / 1600
- **President's Volunteer Service Award Gold:** Achieved 100+ hours of volunteering and community service
- **National Merit Scholar Finalist:** Scored a perfect 1520 / 1520 on the PSAT
