EDUCATION

UC Berkeley, Rausser College of Natural Resources | School Location
May 2029

B.S., Microbiology and Immunology

PROFESSIONAL EXPERIENCE

Cabinet President | Oak Park High School | Oak Park, California, United States
Jul 2024–May 2025

- Allocated $50,000 in funding to support events and initiatives impacting 1,500 students.
- Coordinated strategies and communication among 7 distinct student representative groups.
- Developed consensus-driven solutions, enabling the execution of over 16 major campus events.

Team Captain, Outreach Lead | FIRST TECH CHALLENGE | Agoura Hills, California, United States
Jul 2022–May 2025

- Guided robotics team 20824 to multiple 13 state-level awards, including 1st-place Motivate Award and finalist alliance captaincy.
- Managed 50+ outreach and fundraising initiatives linking robotics with community education, resulting in regional impact.
- Authored 3 technical and outreach portfolios showcasing the team's innovation and community service.

Student Manager | Westminster Free Clinic | Thousand Oaks, California, United States
May 2022–May 2025

- Managed interactions for 60+ student volunteers with healthcare professionals serving patients in need.
- Coordinated schedules and responsibilities to facilitate efficient clinic operations.
- Strengthened communication channels among 300+ students, medical staff, and patients.

Global Chair | leXT Robo Academy | Agoura Hills, California, United States
Jul 2022–April 2025

- Established 273 STEM teams through the United States STEM Education Foundation, expanding across five countries.
- Organized and directed 5 large-scale robotics tournaments, engaging up to 600+ participants each.
- Designed competition games and led 12 weekly international coaching sessions via Zoom.
- Secured $10,000 in funding to support tournament operations and participant resources.

Student Researcher | Golden Biotech LLC | Thousand Oaks, California, United States
Apr 2024–September 2024

- Collaborated in the use of Precigenome 3000 platform to manufacture lipid nanoparticles.
- Maintained and passaged CHO cell lines biweekly under GMP conditions.
- Supported process development efforts in innovative biotechnology projects.

Student Researcher | USC Viterbi School of Engineering | Los Angeles, California, United States
May 2023–July 2023

- Cultured and maintained CHO and CAR-T cell lines for experimental assays.
- Performed PCR and Gibson Assembly techniques multiple times weekly to support molecular biology research.
- Assisted with mouse care and ensured lab equipment was properly maintained and sterilized.

SKILLS

Technical:
Bacterial Cell Culture
Lentivirus Production
PCR Techniques
Wet Lab Procedures

Holistic:
Fundraising
Robotics Coaching
Portfolio Writing
Community Engagement

CERTIFICATES

2022 GRAMMY Award for Best Choral Performance | **National Recording Academy** | *February 2023*
2024 National Merit Finalist | **College Board** | *March 2025*
