EDUCATION

University of California, Berkeley — **Berkeley, CA**
B.S. in Economics — *August 2025 – May 2029*

- GPA: 4.00/4.00|SAT: 1560|Coursework: Financial Accounting (UGBA 102A), Introduction to Business Recruiting
- Awards: Top 3 California State Debate Tournament, Letter of Congressional Recognition (Congresswoman Eshoo)

PROFESSIONAL EXPERIENCE

Khan Family Office — **New York, NY**
Incoming Investment Intern — *May 2026 – August 2026*

- Family investment office of Shahed Khan (co-founder of Loom, company acquired by Atlassian for $1 billion)
- Expected to draft investment memos on emerging tech markets, conduct financial modeling, assist startup incubation

Mercor — **San Francisco, CA**
Incoming Project Management Intern — *February 2026 – May 2026*

- Expected to support strategic project leads with projects for top AI labs through assisting with client sourcing and AI evaluation workflows, translating AI model-training goals into structured project plans and data creation frameworks

Lambda Capital — **Palo Alto, CA**
Private Equity Intern — *November 2025 – Present*

- Conducted valuation analyses and market research for 20+ potential software companies in deals worth ~$10M each; analyzed companies using valuation metrics based on market headwinds, tailwinds, technology moats, and key risks
- Generated weekly leads in various industries using SEC data; modeled potential yearly ROI using end customer base market size data; thesis on anti-money-laundering compliance software approved for acquisition and contact sourcing
- Conducted due diligence by verifying contacts and proofreading offering memorandums for 15 potential deals/week

Anara (Y Combinator '24) — **San Francisco, CA**
Startup Growth Intern — *March 2025 – June 2025*

- AI-assisted software for researchers and research labs; currently 3M+ total users and ~$10M in annual revenue
- Implemented a market plan that scaled services across 5+ university campuses/research labs; executed a top-down approach by leveraging university department chairs and national research organization directors to create cascading adoption across local research teams; designed a workaround for siloed nature of academia through referral effects
- Totaled 500+ individual referrals and assisted 2 other peers to implement similar strategies across different universities

University of California, Santa Cruz — **Santa Cruz, CA**
Environmental Economics Research Intern — *June 2024 – September 2024*

- Utilized machine learning to analyze effects of climate disasters on civilian infrastructure under Dr. Galina Hale
- Created 10 data visualizations in R corresponding to levels of federal welfare relief in different tax brackets across CA
- Conducted geospatial satellite imagery analysis in Python, measuring damage coherence of infrastructure across weekly time series using machine learning techniques; created a panel of 30 satellite images taken x-months before the disaster (1-24) and x-months after the disaster (1-36); research to be part of academic paper & federal policy proposal

George Mason University — **Fairfax, VA**
Finance Research Intern — *June 2024 – August 2024*

- Analyzed 500 open source blockchain projects to examine the relationship between GitHub development activity and funding/governance structures, research abstract published in the GMU Journal of Student Research
- Modified a SQL script in Google Cloud Big Query to collect development activities on GitHub from 2013-2024; combined and cleaned activity data into CSV sheet with Python, modeled research findings in research report

LEADERSHIP EXPERIENCE/EXTRACURRICULARS

Bellarmine High School Economics Team — **San Jose, CA**
Founder and President — *August 2022 – May 2025*

- Instructed 40 high school students about economics weekly, competed at the San Francisco Federal Reserve Bank
