EDUCATION

University of California, Berkeley | *B.A. in Applied Math, B.A. in Data Science | Class of 2029*

- **Related Coursework:** Linear Algebra and Differential Equations, Multivariable Calculus, Computational Structures in Data Science, Foundations of Data Science

Dougherty Valley High School, Dublin High School *Graduation: May 2025 | GPA: 4.42 | SAT: 1530*

- **Awards and Clubs:** National Merit Semi-Finalist, CIF Scholar-Athlete, Dublin Basketball Defensive Player of the Year, AP Scholar with Distinction, Future Business Leaders of America (FBLA)

PROFESSIONAL EXPERIENCE

Dublin High Basketball Camp *Dublin High School*

Coach *Summer 2022, Summer 2023, Summer 2024*

- Volunteered as a coach for youth athletes, leading training sessions by organizing drills, managing practice logistics, mentoring players, and keeping structure during intense 7-hour multi-week programs.
- Mentored players on performance improvement, discipline, and teamwork while enforcing standards of accountability and creating a results oriented environment focused on measurable athletic development.

SELECTED LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Berkeley Student-Run Investment Fund *September 2025 – Present*

Member

- Conducted in-depth fundamental equity research by analyzing financial statements, evaluating historical performance trends, assessing business models and industry dynamics to find investment opportunities.
- Built detailed valuation frameworks using relative valuation multiples and peer benchmarking, including sensitivity analysis to assess downside risk, upside potential, and key assumptions impacting value.
- Developed comprehensive investment memoranda with long and short theses, clearly outlining catalysts, risks, competitive advantages, and macroeconomic factors influencing expected returns.
- Presented investment recommendations to fund members and senior leadership, defending assumptions and conclusions through data driven analysis, structured reasoning, and clear communication under stress.

PlateToPeople *August 2023 - August 2025*

Operations Lead

- Led operational execution at farmers markets by coordinating directly with local businesses, bridging language barriers, optimizing sales flow, and increasing food donations to support resource redistribution.
- Managed end-to-end logistics for collecting and transporting donated food to distribution centers, coordinating volunteers and routes while maximizing the volume and consistency of weekly distributions.
- Designed and launched the PlateToPeople website to streamline internal operations, centralize information for users, and expand organizational reach by improving visibility, communication, and engagement.

Ethereal Apparel *October 2022 – August 2025*

Product Manager

- Led product development for multiple apparel collections by managing design, sourcing, production timelines, pricing decisions, and inventory planning to support consistent sellouts and disciplined execution.
- Scaled brand operations to generate over $70,000 in annual revenue through cost management, demand forecasting, supplier coordination, and data informed product positioning across seasonal releases.
- Contributed to the development and optimization of the Ethereal Apparel website by improving product presentation, customer flow, and digital engagement to strengthen brand visibility and conversion.
