B.A. Rhetoric, Public Discourse | Minor: Public Policy — *Expected May 2028*

American River College — Sacramento, CA
A.A. Social Science | Relevant Coursework: Financial Accounting, Economics, Business Law — *May 2026*

EXPERIENCE

Axia by Qcells
Sacramento, CA
Energy Consultant — *2026*

- Advise homeowners on residential solar and battery storage solutions, including system economics, utility programs, and financing
- Maintain a frontline sales role while beginning studies at UC Berkeley, staying close to customers and evolving residential energy-market dynamics

Ambia Solar (acquired by SunPower) — Grand Rapids, MI
Regional Sales Manager — *Apr 2024 – Jan 2026*

- Launched Ambia Solar's West Michigan market from the ground up, recruiting, training, and managing a 30+ person sales organization
- Generated $24M+ in revenue during the market's first 18 months
- Oversaw sales operations, payroll, and P&L, maintaining approximately 13% margins
- Built recruiting, onboarding, and sales management processes for a new market
- Led sales efforts resulting in 2.2 MW of installed solar capacity, offsetting an estimated 1,500+ metric tons of CO2 annually

Solar Consultant — *Dec 2021 – Apr 2024*

- Generated $2.2M+ in residential solar sales across multiple markets
- Managed the full customer acquisition cycle from prospecting through close
- Earned promotion into regional leadership after establishing a strong individual sales track record

Aptive Environmental — Raleigh, NC
Outside Sales Representative — *2020 – 2021*

- Generated $250K+ in revenue in 7 months, exceeding the branch's average contract value by 25% for a top-ten national pest control company

LEADERSHIP & ACTIVITIES

American River College Model United Nations — Sacramento, CA
Club and Events Board Representative — *2025 – 2026*

- Secured $17,000 in student senate funding for a 15-student conference delegation
- Represented Denmark in simulated UN committees, researching international law and drafting policy resolutions

PROJECTS

Solar Sales CRM & Deal Tracker — Independent Project

- Built an AI-assisted CRM and deal-tracking tool for residential solar sales representatives
- Developed custom commission calculators and workflow features based on firsthand sales-team pain points
- Used AI development tools to rapidly prototype and iterate product features
