Experience

Wrodium May 2026 – Aug 2026
Go-To-Market Intern *San Francisco, CA*
- Fueled a 250+-lead sales pipeline, measured by 100+ leads identified weekly via Clay, by applying a 3-layer ICP framework
- Developed 3-5 outbound variants weekly across cold email and LinkedIn, boosting AI-search visibility for 75% of B2B clients
- Published weekly LinkedIn content positioning Wrodium in the AI-search category, growing reach 30% over 12 weeks

TechEquity AI (Part-time) Mar 2026 – Aug 2026
Business Development Intern *San Francisco, CA*
- Sourced and secured 40-50 speakers for annual AI summits by identifying 300+ industry professionals via LinkedIn and Apollo, conducting discovery calls, and pitching the organization to deliver top AI insights to 80+ community members
- Partnered with 85-100 tech leaders to coordinate scholarship opportunities for youth pursuing careers in tech, contributing to $50,000+ in scholarships awarded at the annual summit, directly supporting the next generation of innovators

Belen Partners Jan 2026 – May 2026
Private Equity Intern *Remote*
- Screened 1,000+ bootstrapped enviro-compliance targets, estimating financials and ownership, advancing 35% to outreach
- Presented investment thesis and leadership strengths on 3-5 investor calls, resulting in a 8% increase in prospect engagement
- Managed an investor tracking system spanning 20+ primary and gap investors by validating committed capital figures across 15+ fundraising meetings, resulting in $2M+ in total committed capital to accurately discover fund targets

Leadership & Involvement

Berkeley Strategy Group Sep 2025 – Present
VP of Partnerships *Berkeley, CA*
- Secure 20+ monthly client calls by leading outbound partnership strategy, executing targeted email campaigns and outreach
- Represent the club in client-facing meetings, delivering polished pitches and communicating value propositions, contributing to 40%+ conversion rate from initial calls to signed projects and supporting ∼10 client engagements annually
- Assist in driving $25K+ in revenue through project support, leveraging prior BSG experience with Microsoft and Uber

Pi Sigma Epsilon (Business Fraternity) Feb 2026 – Present
Director of Professional Development *Berkeley, CA*
- Author biweekly email newsletters reaching 50+ members, curating networking opportunities, internship openings, and consulting case competitions, boosting member engagement with professional development resources by 70%
- Source and coffee chat 20+ industry professionals, organizing two career panels for the UC Berkeley community, connecting ∼200 students with insights from leaders across 5+ industries and expanding member access to mentorship opportunities
- Design and facilitate 8-10 chapter events per semester focused on interview prep, consulting case studies, and career readiness

Projects

Microsoft | *Consulting Project*
- Interviewed 25-30 employees to surface AI sentiment and adoption insights, shaping a final framework recommendation
- Assist in building a prototype application in VS Code in 4 weeks, enabling employees to complete a 5+ pre-interview AI-sentiment questionnaire with automated response logging, increasing project efficiency by 20%

Investment Portfolio Tracker | *Excel*
- Developed an automated dashboard to track a 10+ asset portfolio, utilizing Excel Data Types to pull live market prices and reduce manual entry by 100%, engineering dynamic visualizations to monitor ROI & enable re-balancing of portfolio

Dollar Cost-Averaging Investment Backtester | *Python (Pandas)*
- Leverage Pandas and NumPy to ingest and process 1.5M+ historical data points from 4,000+ public companies, calculating cumulative returns and annualized volatility to simulate risk-adjusted performance across a 10-year look-back period
- Synthesize financial datasets into line charts with Matplotlib, highlighting gaps between DCA and market-timing strategies
