Theo Dela Cruz

San Diego, CA 92126 | theodelacruz115@gmail.com | LinkedIn | Github

Professional Summary

Aspiring Software Engineer with hands-on experience in software development and competitive programming, including projects in Java and C++. Contributed to an educational web app by designing backend features to enhance user engagement. Eager to leverage technical skills and problem-solving abilities in a backend engineering role.

Work Experience

Coolness.ai | *Software Engineering Intern* **Jul 2025 - Aug 2025**

- Developed reusable frontend components with React and TypeScript, improving consistency and scalability across the application.
- Enhanced user experience by implementing responsive layouts, dynamic state management, and interactive UI elements.
- Strengthened frontend development skills through hands-on work in React, TypeScript, and modern app development practices.

Stem-E | *Software Engineering Intern: Education Technology* **Aug 2024 - Dec 2024**

- Collaborated with a team to design and implement features for an educational web app supporting interactive learning via flashcards, quizzes, and note summaries.
- Analyzed website usage data and generated performance reports to optimize user engagement and content accessibility.
- Developed frontend components using HTML, CSS, and JavaScript, supporting structural improvements that enhanced user experience.
- Provided one-on-one tutoring in STEM subjects, using code-driven tools and personalized approaches to reinforce technical concepts.

Education

Mira Mesa High School-San Diego, CA **Aug 2021 - May 2025**

High School (GPA: 4.00/4.00 (UW) 4.90/5.00 (W))

- **Achievements:** Salutatorian, Commended National Merit Scholar

San Diego Miramar College-San Diego, CA **Jun 2021 - Aug 2025**

College Coursework (GPA: 4.0) *San Diego, California*

- **Coursework:** Intermediate Programming with Java, Introduction to C++, Introduction to Assembly, Introduction to Statistics, Differential Equations

University of California, Berkeley **Aug 2025 - Present**

Electrical Engineering & Computer Science *Berkeley, California*

- **Achievements:** Regents' and Chancellor's Scholar

Projects

Student Guide to WellBeing | SGWB | *Student Guide to WellBeing* **Mar 2024 - Present**

- Co-developed a wellness website connecting 2,500+ students to 250+ mental health resources, including local and national services and articles.
- Presented final project to 200+ attendees at the Aspen Ideas Festival; ongoing initiative with campus outreach and wellness events.
- Designed branding, led user testing, and organized talks with nationally recognized speakers to promote mental health awareness.

KnightHacks Winner: Homework Focus Extension | *SWEnext at The Bishop's School*

- Developed a Chrome extension that uses machine learning to track user distractions and promote focus through Pomodoro timers and motivation tools.
- Implemented distraction-detection features and real-time study feedback, enhancing user productivity across devices with Chrome access.
- Collaborated in a team of 4 over 12 hours, writing full-stack code and presenting to judges on UI/UX and technical innovation.

Intuit Social Innovation Challenge Finalists: Tech Desks | *Intuit* **Feb 2023 - May 2023**

- Built a digital classroom tool to promote healthy technology usage after conducting interviews with students, teachers, and counselors.
- Conducted user surveys with 150+ students and iterated through multiple design stages to address screen fatigue and tech boundaries.
- Only team from school selected as finalists among 20 in North America, judged on impact, practicality, and presentation.

Extracurricular

Computer Science Club @ Mira Mesa | *2023: Secretary; 2024+: President* **Aug 2022 - May 2025**

- Launched a local Hack Club chapter and created workshops on Java, web design, and hardware including sprig games and PCBs.
- Mentored peers in independent projects and participated in hackathons, encouraging real-world application of CS skills.
- Designed internal coding challenges to simulate real-world problem solving, improve algorithmic thinking, and enhance technical interview preparation.

Technical Skills

- **Languages:** Java, C, C++, C#, Python, Javascript, Typescript
- **Frontend:** HTML, CSS, React.js
- **Tools and Platforms:** Git, Github, Unity, Figma
