RESEARCH EXPERIENCE

Summer Intern, City of Hope — *Supervisor: Dr. Junfeng Li*
Arthur Riggs Diabetes & Metabolism Research Institute Summer Research Program
Jun. 2023 – Aug. 2023
- Pre-treated isolated human islets with oleanolic acid and its derivative for long-term islet culture.
- Assisted in evaluating insulin expression in isolated islets using immunofluorescent staining.

Eugene and Ruth Roberts Summer Student Academy — *Jun. 2024 – Aug. 2024*
- Assisted in optimizing the reaction conditions for the modification of extracellular vesicles derived from human umbilical cord mesenchymal stem cells (UC-MSC-EVs) by conjugating them with a G-protein coupled receptor 44 (GPR44) antagonist to enhance their targeting of beta cells.
- Capture Images of IHC Slides for Analysis of the Biodistribution of Modified UC-MSC-EVs.
