EDUCATION

University of California, Berkeley

- *College of Letters & Science:* BA in Economics & Operations Research and Management Science
- *Cumulative GPA:* 3.7/4.00 | *Honors:* Regents' & Chancellor's Scholarship Finalist

WORK & PROFESSIONAL EXPERIENCE

Infoblox – *Product Management Intern*, Santa Clara, CA — June 2026 – Present

- Created an internal telemetry dashboard POC (Proof of Concept), converting raw grid and member data into churn, upsell, and liabilities use cases over time; presenting to leadership (Chief Product Officer + others) after 4 stakeholder review cycles
- Full ownership of BloxConnect project, tracking ~2,500 enterprise NIOS deployments; audited & defined 300+ parameters
- Mapped 228 accepted incoming feature requests to next-gen product phase initiatives with confidence-ranked matches and PM ownership recommendations; built and deployed an AI agent integrated with Salesforce tracking quarterly sales and revenue trends

Intelligence Cubed – *Product Management Intern*, Berkeley, CA — February 2026 – June 2026

- Managed end-to-end product design from initial sketches to interactive prototypes, then iterating to build implemented products
- Utilized Claude, Embeddings, Figma AI, and other Large Language Models to enhance UX research, wireframing, and UI copywriting

Google Cloud Platform – *Product Management (Contract),* Berkeley, CA — September 2025 – December 2025

- Evaluated Google Cloud's standing within emerging PLG and AI ecosystems, outlining key opportunities and strategic risks
- Interviewed 5+ agentic AI startups and translated key onboarding strategies into initiatives to strengthen product-led adoption

Holy Shred: Thai Street Food – *Project Manager,* Berkeley, CA — September 2025 – December 2025

- Directed a team of 5 consultants to drive growth strategy; designed project scope, led weekly meetings, & obtained free food
- Drove growth strategy through graphic design (Figma & Canva), various marketing campaigns, and operational improvements

Warner Brother's Discovery – *Product Management (Contract),* Berkeley, CA — February 2025 - May 2025

- Conducted competitor benchmarking & synthesized 40+ pages of research into 4 key actionable insights with risks and mitigations
- Pushed for greater integration of Olli, WBD's first-party data platform, to better unify audience insights and ad tech solutions

RESEARCH EXPERIENCE & GAP SEMESTER

U.C. Berkeley Undergraduate Research Apprenticeship Program – *Research Assistant,* Berkeley, CA — September 2025 – January 2026

- Partnered with Lineman Thailand to analyze driver, weather, and incentive data using R, generating visual dashboards and graphs to uncover key operational insights; assessed how varying incentive structures impacted delivery volume, hours, and efficiency over time
- Examined over 100,000 driver records across 10 provinces; presented insights to Thailand Lineman leadership and engineering teams

George Washington University – *Data Science & Statistics Fellow,* Berkeley, CA — May 2025 – September 2025

- Engaged in data science training and research, developing strong foundations in data mining and machine learning algorithms
- Applied Python & R to conduct spatial statistics and topology data analysis to map risk factors of flooding within the D.M.V. region
- Presented findings to representatives from the Office of the Chief Technology Officer & Natural Resources Administration

George Washington University – *Research Intern,* Berkeley, CA — June 2022 – September 2023

- Tracked eight separate economic indices to research trends in inequality within the Forbes 400 across income groups & demographics; found that wealth distribution among Forbes 400 is significantly lower inequality than that of the general U.S. population
- Learned web scraping techniques to extract raw datasets from Forbes 400, identifying patterns, trends, and outliers over time

Gap Semester – *Solo Travel* — September 2024 – December 2024

- Travelled to over 15 countries across Europe & Asia, staying in hostels, learning local lifestyles, and experiencing all kinds of cultures
- Worked on a farm in Sweden, road tripped across Croatia, cycled through Scotland–connected with people from around the world

HONORS & AWARDS

- **Project Showcase** (September 2025) at George Washington University: Environmental Equity, Health Vulnerability, Topographic Flood Susceptibility in Washington, D.C: A Spatial Analysis of Risk & Resilience
- **Publication** (January 2024) to Journal of METRON: A statistical examination of wealth inequality within the Forbes 400
- **Topic Contributed** (August 2023) at *Joint Statistical Meetings*: Trend of Inequality Within the Forbes 400 Over the Last 20-25 Years

SKILLS

Product: Jira, Figma, Tableau, Salesforce, Roadmap and Requirements Mapping, Stakeholder Discovery, Prototyping, LLMs, Agent Workflows

Technical: Python (Pandas, NumPy, Scikit learn), R, Git, SQL, Java, JavaScript, Random Forests, Data Cleaning, ML & Feature Engineering

Languages: Native English & Mandarin; Conversational Spanish
