EDUCATION

UC Berkeley - *Management, Entrepreneurship, & Technology Program* **Expected May 2028**

B.S. Business Administration, Haas · B.S. Electrical Engineering & Computer Sciences, Berkeley Engineering *GPA: 3.70/4.00*

Societies: DTS A Cappella (VP), Capital Investments at Berkeley (VP), M.E.T. Strategy Group (VP), Indian Students Assoc. (Board)

Scores & Honors: SAT (**1570**), Berkeley Dean's List, USA Biology Olympiad (Top **1.5%** of 10,000+), American Rocketry Challenge (National Finalist), Toshiba ExploraVision Innovation (Top ~5% of 2,000 Teams), Science Olympiad (27 State/National Medals)

Relevant Coursework & Certifications: Business: Strategy, Venture Capital, Product, Accounting, Economics, Finance (LBO, DCF, M&A, Valuation, Portfolios) | EECS: Cybersecurity, Signals, Java, Python, SQL, Algorithms, Data Structures, ML, Neural Networks

PROFESSIONAL EXPERIENCE

Morgan Stanley Menlo Park, CA

Incoming Investment Banking Summer Analyst, Global Technology Group June 2027

Alumni Ventures Menlo Park, CA

Investment Team Intern, AI, Blockchain & Robotics Fund Jun 2026 – Aug 2026

GenPF *(Venture-Backed Agentic Portfolio Manager)* San Francisco, CA

Software Engineering & Portfolio Analytics Intern Jun 2025 – Oct 2025

- Researched **80+** equities for investment using **30+** KPIs and developed portfolios via macro, catalyst, and sector management.
- Built LangGraph ReAct **agents** analyzing 3,300 equities; created pitches to close VCs, **$100B+** AUM clients incl. **Capital Group**.
- Analyzed **10+** L/S fund portfolios and strategies using earnings, reports, models, and macro regimes for institutional investors.

Blue Origin San Francisco, CA

Financial Contract Consultant, Blue Ring Aug 2024 – Dec 2024

- Evaluated **4** deep tech **M&A** targets via **20+** financial models and synergy analysis using **40+** filings, calls, and sell-side reports.
- Developed a detailed, efficient infrastructure proposal for Blue Ring, optimizing Blue Origin's core assets for a $3B FCF target.
- Presented **5** high-IRR business cases for in-space semiconductor and pharmaceutical production to Blue Origin leadership.

Massachusetts Institute of Technology Cambridge, MA

Research Intern, Cordero Lab Jun 2023 – Jul 2024

- Created an innovative image analytics model using ImageJ to upend laboratory methods by expediting dimensional bacterial growth analysis by **300%** and reducing costs by **40%**, resulting in high praise and a return offer from Professor Otto Cordero.

Harvard Medical School Cambridge, MA

Research Intern, Computational Neuroscience Outcomes Center Jan 2023 – Jan 2024

- Optimized spatial Glioblastoma analysis using a novel TensorFlow 3D CNN+RNN structure, enabling efficient AI model training to personalize chemotherapy via visual genetic cues: projected to expedite treatment and minimize invasive neurosurgery.
- Conducted review of **40+** publications to identify impactful genetic focus points and presented to potential clinical partners.

LEADERSHIP & COMMUNITY IMPACT

Capital Investments at Berkeley Berkeley, CA

Semiconductor Equities Analyst & External Vice President Feb 2025 – Present

- Constructed and presented market and investment memos for UC Berkeley's only **$100,000+ AUM** multi-strategy hedge fund.
- Developed **15+** equity reports and models (DCF, three-statement, revenue) using 10-K/Qs, earnings calls, and data platforms.
- Managed and sourced external projects, corporate sponsors, partners, competitions, and outreach with Berkeley community.

GCL Boston, MA

Chief Strategy Officer, Director Aug 2021 – Jun 2024

- Raised funds from corporate sponsors, managed **$85,000+**, **led 60+** volunteers, and strategically boosted outreach by **170%**.
- Founded a program exposing underfunded Title I schools to CS and optimized a **$16,000** budget to launch a **nationwide pilot**.

TECHNICAL PROJECTS & INTERESTS

Clinical Trials Selector: NLP product matching **VA patients** to clinical trials via EHR data; deployed to millions of veterans via CTM.

LexProtect3D: Led team of **15+** to 3D Print and distribute **10,000+** ear guards to MA frontline workers, first responders, and all major Boston hospitals. Utilized CAD and QC to produce scalable, reliable, biodegradable mask straps, reducing costs by **70%**.

T.A.R.C.: Built **nationally competitive**, self-guided rockets using CAD, computational fluid dynamics, and KiCad electrical design.

D.E.E.P.S.E.A.S.: Developed and published **award-winning**, low-cost, audiovisual CNN-based edge devices to report illegal fishing.

Interests: A Cappella, Film & Digital Photography, Road Trips, Classic Vocals, Guitar, Concerts, Hiking, Ultimate Frisbee, NFL, CFB.
