Savir Wangoo

EDUCATION

University of California, Berkeley **Dec 2028**
Bachelor of Science, Electrical Engineering and Computer Sciences

EXPERIENCE

Skyrelis | AI Startup **Aug 2025 - May 2026**
Software Engineer Intern
- Built an academic advising agent providing real-time course planning and transfer guidance across a catalog of 1,000+ courses.
- Created a web-scraping and ingestion pipeline to collect and persist course catalog data to a PostgreSQL database, enabling the transfer and course-planning workflows that power CourseGenie.
- Deployed on Google Cloud Platform to support CourseGenie's course-planning and transfer workflows.

Diablo Valley College **Jan 2025 - May 2026**
Academic Tutor
- Provided 1:1 and small-group tutoring in math to college students, breaking down complex concepts
- Communicated technical ideas clearly and adapted explanations to different learning styles

LEADERSHIP

Startup Society Club, Diablo Valley College **Aug 2025 - May 2026**
Co-Founder & President
- Grew a 50+ member entrepreneurship club helping students turn early-stage ideas into feasible products.
- Managed a 5-person team developing a resume enhancement platform to support DVC students through the recruiting process.
- Partnered with student organizations to organize hackathons and workshops.

Community Outreach Club, Diablo Valley College **Jan 2025 - May 2026**
Co-Founder & Vice President
- Made partnerships with community organizations across the Bay Area to coordinate community service projects.
- Led outreach and project coordination efforts to expand volunteer opportunities for DVC students.
- Served as site leader for the club's Berkeley project.

PROJECTS

Notiq AI **May 2026 - Present**
- Independently built and scaled a React/TypeScript test-prep platform powered by Gemini, serving more than 800 active AP and SAT/ACT users with authentication, progress tracking, and real-time AI generation.
- Developed an adaptive workflow that analyzes performance patterns, identifies knowledge gaps, and generates personalized study guides, practice tests, and targeted video content.
- Wrote tests for core React workflows and built PostHog funnels to track user behavior across key product flows, surfacing drop-off points and informing product iterations.

Pong **Jun 2025 - Aug 2025**
- Engineered a chatbot that ingests user message history into SQLite, retrieves contact-specific context, and adapts generated responses in-session through a Streamlit interface.
- Designed an adaptive response engine that updates its persona with conversation context to better match the user's communication style.

SKILLS

- **Languages**: Java, Python, TypeScript, SQL, HTML/CSS
- **Frameworks**: React, Flask, Streamlit
- **Databases & Infrastructure**: PostgreSQL, SQLite, Supabase, Google Cloud Platform (GCP)
- **AI/Developer Tools**: Git, Codex, OpenAI API, Gemini API
