University of California Berkeley Student

213-261-1967 · seongminsong@berkeley.edu

EDUCATION

University of California, Berkeley, Letters and Science intended graduation year Economics & Data Science
· Sophmore in the college of Letters and Science

EXPERIENCE

Open Project, Berkeley, 2025-2026 Sub-team leader *(2025-Current)*

·Worked as a subteam leader coordinating with other groups to facilitate the development of code that would be used in turning data from voxels into the appropriate RGB values

·Analyzed efficiency of functions and proceeds to communicate with project managers and other sub team leaders into making sure that we were using the same variable and data types

· Drafted role distribution between our subteam and assisted others in making decisions on how to write the most efficient line of code

Assistant for Professor Christopher Martin, Berkeley (2024-Current)

· Maintained freshwater aquarium systems, ensuring optimal water quality, filtration, and temperature control

· Performed regular tank cleaning, water changes, and equipment maintenance

· Monitored fish health and behavior, identified and addressed signs of stress and illness

· Managaed feeding schedules and balanced nutrition to support fish health and growth

· Communicated with other assistnats to coordinate a schedule where everyone was able to find a shift that they were able to work making sure that someone was in care of the fish at all times

Asian American Association Culture Committee, Berkeley (2025-Current)

· Communicated with other Asian clubs on campus to host joint events to bring awareness and foster Asian culture

· Conducted outreach to asian american influencers to onboard them for speaker events for the student body finding an intersection between insight and spotlight into niche interest

Leadership Experience Opportunity (LEO Clubs), Los Angeles, 2020-2024 Secretary, District 4-L3

· Oversaw logistics of clean up operations of local parks and beaches from volunteers within Distric 4-L3 and provided a report on direct impact upon completion the task

· Made meeting notes and created financial accounts for cross club meetings and fundraisers as keeping precise track of efforts were important when sending end of the year report to district president

ADDITIONAL HOBBIES AND INTEREST

· Fluent in Korean, ample knowledge of Java

· Love photoshopping faces when pictures don't come out right

· Enjoy Volleyball, ping pong, and soccer

· Interest in finding intersection between biology and economics
