EXPERIENCE

Home Food Central — Bay Area, CA
Backend Engineering Intern — May 2026 – Aug 2026
- Built AI agents that automated backend workflows for a B2C startup, turning recurring operational processes into software-driven systems.
- Conducted market analysis and research in person and via email for the app's beta release to inform launch decisions and increase user base.

VENTURES & PROJECTS

Firebreaker.org
Founder — Jan 2024 – Present
- Built fire-management software combining crowdsourced data with public-safety efforts to support wildfire prevention and open-space management.
- Working with city/state officials to explore integration into existing land-management practices; named a finalist for the Press Democrat Youth Service Awards.

KLL Advisory
Co-Founder/CEO — May 2026 – Present
- Created review management for small restaurants in Northern California, connecting restaurateurs with modern platforms (Beli, Yelp, Google Reviews, Instagram).

FrameBranch — Aug 2026
- Creating a platform similar to GitHub for video editors to collaborate without uploading large video files online. Free and open source.

Consulted — Jul 2026
- Founded and scoped a two-sided marketplace connecting founders with vetted trade and service experts. Proof-of-concept (https://consulted.vercel.app/) submitted to Y Combinator W26.
