EDUCATION & COURSEWORK

UC Berkeley - Management, Entrepreneurship, & Technology Program **May 2029**

Dual Degree: B.S. Bioengineering/B.S. Business Administration | **GPA**: 3.53

Courses: Biomedicine, PCB Design, Management Special Topics, Business Foundations, Linear Algebra, Multivariable Calculus

Skills: *Technical*–Python, PyTorch, Tensorflow, LangChain, Full Stack, Solidity Web3, MATLAB, C++, Azure | *Engineering*–KiCAD, Allium PCB, Solidworks, MRI, ELISA, PCR, Cell Cultures | Business*/Product*–Figma, Jira, Excel, Apollo, Canva, Customer Discovery

EXPERIENCE

GlaucoNova Labs, Berkeley, California **May 2023 – Present**

VC-Backed Founder: Wearable Med-Tech Startup *(www.glauconovalabs.com)*

- Building the world's first ultrasound-integrated smart glasses for continuous eye pressure monitoring at 92% accuracy, 95% cheaper than existing devices. Patented embedded system designs, manufacturing form factors, and ML algorithms.
- Raised $33K in pre-seed funding from Toshiba VC, Haas, & Big Ideas Contest to test device in-vitro at Dr. Flanagan's lab (Berkeley College of Optometry). Completing human trials on 1200 patients by May 2026, in partnership with 32 clinics.
- Led growth & GTM: pitched to & secured LOIs from 348 physicians & 7 B2B distributors (Target, Walmart, LensCrafters, Warby Parker, etc), willing to purchase 6-30 devices at $299/unit, summing $168K in customer purchase intent post FDA.

Mayo Clinic, Rochester, Minnesota **August 2023 – Present**

Paid Neurology AI Researcher: Flagship Clinical AI & Neurology Center

- Engineered multimodal neural networks (autoencoders, LSTM, transformers) to analyze voice recordings, speech patterns, & imaging data (ultrasound, MRI, PET) for novel mobile-based early Alzheimer's diagnostics with 88% accuracy.
- Sourced & built HIPAA-compliant clinical data pipelines from 1500 patients, during fully-funded on-site fellowship (2024).
- First-authored paper with 3 MD/PhDs on ML-based speech disorder prognosis; achieved 86% AUC & tested on 160 users.

Sun Life Financial, Toronto, Canada **June 2024 – July 2024**

Cybersecurity Strategy Analyst: $35B Fortune 500 Insurance & Investments Firm

- Conducted market research, engaged, & negotiated with 7 vendors for Remote Browser Isolation (RBI) solutions reducing phishing attacks by 20% at 22 global offices. Proposed strategy to pivot legacy proxy infrastructure to Netskope.
- Scaled initial pilot tests at HQ, assessing user impact for 28 employees. Presented rollout & tech strategy to CISOs & CIO.

TinEye, Toronto, Canada **September 2022 – October 2023**

Machine Learning Engineer: Series B Haptics Device Startup

- Built haptic gloves & vests, integrated with LiDAR & computer vision, as navigation tools for the blind. Fabricated PCB with a team of 10+ engineers. Trained and integrated proprietary computer vision models (95% accuracy) into products.
- Conducted 20+ customer interviews at Canadian National Institute for the Blind, reporting findings to tech team & CEO.

LEADERSHIP

National Canadian Team Debater & Public Speaker, International **February 2024 – February 2025**

Policy Debate, Persuasive Speaking, & Impromptu Speaking: International Delegation

- Placed 6th/400 in the National Debating and Public Speaking Championships, qualifying for the Canadian National Team.
- Ranked as top 20 speaker and finalist at World Individual Debating & Public Speaking Championships in Australia (2024).
- Won 1st/59 in Nationals Public Speaking, being chosen as the sole delegate of Canada to the International Public Speaking Competition in London, UK (2024) & The Stanford Invitational (2025), ranking as top 10 speaker at both events.

University of Pennsylvania, Pennsylvania **July 2023 – August 2023**

Independent Wet Lab Biotech Research: Abramson Cancer Center (Received College Credits)

- Founded independent research initiative on nanoparticle-based controlled delivery of proteins and antimicrobial agents as a novel treatment for subglottic stenosis (upper throat fibrosis) using ELISA, polymer synthesis, & in-vitro cell culture.
- Conducted 3 weeks of on-campus research: co-led in-vivo testing on 6 mouse models, designed experimental roadmap, sourced $2K in consumable materials. Presented findings to 40+ UPenn bioengineering faculty at the annual symposium.

AWARDS & ACHIEVEMENTS

- 3rd Place Entrepreneurs@Berkeley Demo Day: Pitched to VCs at Boost, Z-Fellows, Soma Capital, Pear, & SV Angels (2025)
- 5th Place Global Medallist (out of 41375): International Career Development Conference, DECA Entrepreneurship (2023)
- Top 15 (Bronze Medal) National Award (out of 600+): The Canadian Astronomy and Astrophysics Olympiad (2023)
- 8th Place International (out of 4000 teams): Conrad Innovation Challenge hosted by the Houston Space Center (2024)
- 3rd Place National (out of 1300), NASA & Canadian Space Agency Space Apps Hackathon: Built Space Sonifier (2024)

ADDITIONAL INFORMATION

- Hobbies: Berkeley Pro Cricket Team, Director & Actor in Bengali Theatre, Stargazing, Hiking, Harmonium, and Squash.
- Languages: English, French, Bengali, Hindi.
