Stesha Simon

steshasimon@berkeley.edu | 5106349910 | Berkeley, CA | linkedin.com/in/stesha-simon | github.com/Stesha5307

EDUCATION

University of California, Berkeley, *Data Science | Environmental Economics and Policy* 05/2029 | Berkeley, CA
Relevant Coursework: Data Science Foundations, Data and Decisions, Anthropology of Science, Data, and Technology, Intro to Macroeconomics(TC), Intro to Microeconomics(TC), Computational Structures in Data Science, Data Structures and Algorithms, Linear Algebra and Differential Equations(TC), Microeconomics

WORK EXPERIENCE

Product development Intern, *EaseFin AI* 06/2026 – 08/2026 | Remote
- Wrote system prompts for an LLM that provides microfinance guidance to underserved communities through a multilingual AI assistant
- Researched microfinance institutions, banks, and government assistance programs, and integrated findings into the AI system to improve response accuracy

Data Engineer, *Plant Culture Systems* 05/2026 – 08/2026 | Remote
- Built data pipelines integrating satellite imagery, weather, and historical yield data for agricultural underwriting.
- Processed and transformed cloud-hosted datasets using Google Cloud Platform (GCP) into model-ready inputs.
- Performed feature engineering and data preprocessing to support predictive modeling and farm risk assessment.
- Built AI-driven automation workflows using Agentic AI and OpenClaw to streamline food security and sustainability research, reducing manual processing overhead

Data Analyst, *Ten Strands* 01/2026 – 05/2026 | Berkeley, CA
- Built Python-based analytical models examining relationships between climate risk exposure and educational inequities across California school districts
- Classified and cleaned large-scale multi-source datasets using API integration, geospatial processing, and data standardization techniques
- Developed data visualizations and statistical analyses using NumPy, Pandas, Matplotlib, and Seaborn to identify spatial and demographic climate vulnerability trends

Associate & Data Analyst Intern, *ThinkNeuro* 05/2025 – 08/2025 | Berkeley, CA
- Analyzed bibliometric data to explore the role of AI and neuroimaging in the early detection of adolescent anxiety.
- Applied R and bibliometrics through co-authorship and co-citation network analysis, keyword mapping, and research trend using Scopus and Web of Science data.
- Presented at the ThinkNeuro Symposium with 1500+ attendees to fill in the educational gap on early detection of anxiety.

Technology & Business Development Intern, *Knodemy* 05/2023 – 04/2025 | Livermore, CA
- Designed core curriculum connecting 50+ low-income students to EdTech applications (Scratch, W3Schools, Wix, MIT App Developer)
- Conducted outreach and growth initiatives, grew partner apartment complexes by 33%,
- Led initiative to install computer labs for youth lacking Wifi or laptop access

Captain of Limited Prep Events, *James Logan High School* 08/2024 – 05/2025 | Union City, CA
- Regularly mentored 25+ novices through research, drafting, and memorizing their speeches in impromptu and extemporaneous speaking
- Qualified for the state championships, placing top 56 in California.

SKILLS

Programming & Technical Stack: Python, R, SQL, JavaScript, Java, C++, HTML, CSS, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, GeoPandas, Pyspark

Techniques: Data Pipelines, Data Ingestion, Feature Engineering, Statistical Modeling, Machine Learning, K-Nearest Neighbors (KNN), Predictive Analytics, Geospatial Analysis, GIS Mapping, Agentic AI Workflows, LLM Workflows, API Integration, Workflow Automation, Data Cleaning & Transformation, Data Modeling, Dashboard Development, Exploratory Data Analysis (EDA), Business Intelligence, Data Visualization, Hypothesis Testing, A/B Testing

Software & Tools: Excel, Git, GitHub, Jupyter Notebook, VS Code, Cursor, BigQuery, Google Cloud Platform (GCP), ArcGIS Pro, Google Earth Engine, Power BI, Tableau, OpenClaw, Salesforce, Airtable, Notion, Figma, Canva, Apollo, Mergo, YAMM

AWARDS

New Haven Administrators Association Scholarshinp, Golden Gate Seal merit Award, President's Award For Outstanding Academic Excellence, Principals Award For Academic Achievement
