EDUCATION

University of California, Berkeley | Expected Graduation: Spring 2030
B.A. in Data Science, College of Computing, Data Science, and Society (CDSS)

Academic Honors: High School Valedictorian (Rank 1/355), Unweighted GPA: 4.00 / Weighted GPA: 4.95
Relevant Coursework: Linear Algebra, Discrete Mathematics, Calculus I & II, Intro to Python (UCSD), The Atmosphere (UCSD)

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, Lua, C++, NumPy, Pandas, discord.py
Hardware & Systems: Embedded Systems, OAK-D, Neural Network Accelerators, Edge AI Hardware, VEX Robotics
Tools & Platforms: Git/GitHub, Jupyter Notebooks

RESEARCH & TECHNICAL EXPERIENCE

UCSD Mentor Assistance Program (MAP) Research Intern | San Diego, CA | Oct 2025 – May 2026

- Researched machine learning and computer vision architectures under the guidance of Dr. Jack Silberman, replicating the autonomous vehicular system of Tesla
- Implemented neural network acceleration models on embedded edge hardware for real-world computer vision applications.

San Diego Supercomputer Center (SDSC) Co-Creator & Program Lead | San Diego, CA | Oct 2024 – Present

- Co-created the Advanced Research Experience (ARE) program alongside SDSC leadership to provide accessible AI/CS research opportunities for high school students
- Programmed a 25-dimensional perceptron model in Python to classify geographic data and predict localized municipal flood risks
- Managed program branding, curriculum architecture, and outreach strategies to ensure low-cost access for underrepresented students

UCHS Listen Lab Data Analyst | San Diego, CA | Oct 2024 – May 2025

- Collaborated with university researchers to analyze behavioral and academic engagement datasets spanning 800+ students
- Presented statistical insights and data visualization findings to school district superintendents, principals, and faculty to reduce classroom disengagement

TEACHING & LEADERSHIP EXPERIENCE

Science Olympiad — Vice President & Team Lead | *San Diego, CA* | Aug 2023 – May 2026

- Led team operations, technical build iterations, and regional competition logistics for a 30+ member squad
- Placed 2nd out of 67 teams in Air Trajectory by deriving kinematic equations and engineering a custom pneumatic propulsion system

SDSC StudentTech — Lead Instructor & Teaching Assistant | San Diego, CA | Jun 2025 – Jul 2026

- Co-designed and taught interactive curricula covering Java, Python, fundamental machine learning theory, and VEX Robotics to middle and high school students.

HONORS & AWARDS

Centurion Foundation Academic Scholarship Recipient (2026)

Science Olympiad Regional Medalist: 2nd Place Air Trajectory, 10th Place Fossils, 18th Place Optics (2025)
