EDUCATION

UNIVERSITY OF CALIFORNIA, BERKELEY — **Berkeley, CA**
Bachelors of Science Economics, Molecular Biology, & Data Science — **2025-2029**

PROFESSIONAL & RESEARCH EXPERIENCE

BALAVEDA — **Berkeley, CA**
Strategy Consultant | Contract — **September 2025-Present**

- Conducted market research and developed innovative marketing strategies to help Balaveda, a leading healthy energy drink start-up, expand to the college student demographic through creative product placement initiatives, surveys, marketing demos, and campaigns.
- Crafted 12 executive-level pitch decks and presented key insights directly to the C-suite, influencing strategic brand positioning, outreach campaigns, and unique marketing initiatives reaching over 5,000 college consumers through social media and physical events.
- Conducted global market research for expansion into the Middle East, Asia, and South American markets to analyze international consumer habits, map economic regulatory frameworks, and make strategic recommendations on pricing and market prioritization.

ALBERT EINSTEIN COLLEGE OF MEDICINE — **Bronx, NY**
Bioengineering Researcher and Analyst — **March 2023-March 2025**

- Conducted cost and supply-chain analyses of therapeutics, evaluating assays, reagents, and synthesis materials; negotiated with scientists and external suppliers to optimize experimental quality and cost efficiency, and supplemented research with technology transfer workshops and lectures to understand IP strategy, licensing, and commercialization pathways at elite research institutions.
- Researched and developed a novel therapeutic for the accessible and sustainable treatment of diabetic wounds combining capsaicin and metformin nanoparticles using green chemistry; independently performed nanoparticle experiments and inflammation studies.
- Developed a novel beating cardiac model of Fabry Disease using iPSCs to differentiate disease-specific fibroblasts into cardiomyocytes.

EXTRACURRICULARS & PROJECTS

SUSTAINABLE ENTREPREURSHIP AT BERKELEY — **Berkeley, CA**
Project Manager — **December 2025-Present**

- Selected to be a project manager in second semester, independently sourcing in the biotechnology and social impact industry, successfully securing several spring clients and preparing to lead a team of consultants to execute a professional consulting project.

Consulting Analyst — **September 2025-December 2025**

- Completed 15-week new member training in consulting fundamentals, learning client communication, public speaking, and professional deck design; gained practical experience in analysis, strategic problem-solving, and presenting deliverables to our clients.
- Attended workshops on climate finance and justice; networked with 15+ consulting professionals from firms like Bain & McKinsey.

DECA INC. — **New York, NY**
Chapter President & Regional Representative — **September 2025-Present**

- Crafted projects combining AI, medicine, and bioengineering at DECA conferences; presented an international award-winning project on inventing and marketing a clinical biomarker for pain, biodegradable plastics, and AI tools to expedite the retail experience.
- Planned and led weekly board meetings and oversaw competitive events; created a chapter mentorship program; 3x membership under my leadership; led DECA at the regional level and organized conferences; strategized DECA's penetration into the greater community.

BAKE BACK AMERICA — **New York, NY**
Founder, Curriculum Leader, and Writer — **January 2022-September 2025**

- Created a weekly medical program for 30 elementary school students in a homeless shelter, teaching them about careers and projects in science and medicine; responsible for curriculum development; authored 10 nationally distributed children's science booklets & tools.
- Mentored multiple new volunteers, teaching them valuable communication and leadership skills, while expanding the program's reach.

ARDSLEY PRE-MED CLUB — **New York, NY**
Founder and President — **September 2025-Present**

- Facilitated weekly bioethical debates, inspired 100+ high school students to create passion projects relating to medical interests, led fundraising initiatives, and organized medical field trips like suturing and dissection workshops to facilitate hands-on learning projects.

ADDITIONAL INFORMATION

- Technical Skills: Microsoft Excel, Powerpoint, Word; laboratory research (ELISA, cell culture, nanoparticles, stem cells)
- Awards: International GENIUS Finalist; Future of Medicine Award, 1st Place Medicine & Health (WESEF), NY JSHS Finalist, DECA ICDC Qualifier, National Excellence in French (Silver & Gold)
