EDUCATION

University of California, Berkeley — **Berkeley, California**
Bachelor of Arts in Economics & Minors in Statistics & Geology, GPA: 3.80/4.00 — *Expected 2028*

WORK & LEADERSHIP EXPERIENCE

Livmo — **San Diego, California**
M&A Analyst Intern — June 2025 – September 2025

- Prepare CIMS and conduct valuation analysis for two active sell-side mandates in HR technology
- Build targeted buyer lists and manage strategic outreach campaigns to source strategic acquirers
- Create M&A marketing materials including a SaaS valuation tool and educational lead magnets

Synesis Advisors — **San Francisco, California**
Applied Researcher — *May 2025 – July 2025*

- Developed VBA macros to extract non-uniform deductions and line items from Form 1120s
- Automated SDE template population using macros to parse P&L, add-backs, & deductions
- Advised partners on key opportunities to automate material preparation and financial analysis

Stormlight Capital — **Los Angeles, California**
Investment Analyst Intern — March 2025 – May 2025

- Sourced and profiled over 350 acquisition targets in the travel sector through industry research
- Evaluated companies against recurring revenue, CapEx, EBITDA, & owner involvement
- Created investment theses on key travel sub-sectors to advise operator on acquisition strategy

Next Haven Group — **Skokie, Illinois**
Private Equity Analyst Intern — Jan 2025 – Feb 2025

- Cold-called 60+ businesses weekly to source deals for a lower middle-market owner-operator
- Constructed 3-statement projection models for an instructional case study to develop valuation skills
- Authored and presented a capstone investment memorandum on a simulated acquisition target

Investment Fund — **Los Gatos, California**
Limited Partner — Nov 2024 – Present

- Limited Partner in a $42K portfolio targeting underserved semiconductor and aerospace companies
- Harvest income through CSP and CC strategies prioritizing stable income over heavy upside
- Report strategy, executed trades, and portfolio risk management updates to investors weekly

PROJECTS

Cash-Secured Derivative Algorithm

- Built a cash-secured put analysis tool that leverages implied volatility, lognormal distribution assumptions, and open-interest/volume ratios to compute breakeven prices, probability of profit, expected value, and return on collateral across sell-to-open option expirations.

Equity Research Memorandums

- Authored personal investment memorandums on RKLB, MRVL, RTX , SOUN, and TMC by developing 3-statement models, running a multiples-based valuation (FCF Yield, EV/EBITDA, P/E), and stress-testing investment theses against catalysts like government contracts, interest rate changes, and shifts in the U.S. defense budget.

Skills & Interests

Skills: 3-Statement Modeling, Comparable Company Analysis, Confidential Information Memorandum Development, Discounted Cash-Flow Analysis, Common-Size Analysis, Financial Accounting
Computer: Excel (Functions & Macros), Python (math, SciPy), SQL (Joins, Queries, Database Design)
Certification: Securities Industry Essentials (SIE), Wall Street Oasis Investment Banking Course
Interests: Cycling, Weightlifting, Vintage Watch Collecting, Bass Fishing, Cooking (Sous-Chef at 15)
