Education

University of California, Berkeley — *Berkeley, CA*
B.S, Electrical Engineering & Computer Sciences — *May 2028*
***Relevant Coursework**: Introduction to Financial Accounting, Introduction to Economics, Macroeconomics, Sportstech: Building an AI Startup, Data Structures & Algorithms.* **GPA: 3.6/4**
***Awards**: **International Cricket Player** — Youngest ever debutant for Singapore, SOF International Math Olympiad: Global 6th, All-Round Excellence Award for 4 years (1 student a Year), National Athlete & Academic Scholarship Student.* **SAT: 1540/1600**

Experience

KKR — *September 2025 - October 2025*
Contracted Analyst
- Consolidated vendor data across 21,000+ suppliers and 18 subsidiaries for a $10B+ PE firm, building a unified taxonomy and single-sheet view to streamline spend visibility.
- Identified multi-million-dollar negotiation savings by analyzing consolidated spend patterns and vendor overlap.

Morgan Stanley Case Competition — *September 2025 - October 2025*
Analyst
- Finalist (Top 5) in Morgan Stanley Case Competition advising Ayar Labs on strategic alternatives, including potential IPO vs. strategic sale to partners such as NVIDIA and Oracle.
- Developed valuation analyses (DCF, trading comps, P&L model) to compare IPO vs. strategic sale economics; quantified EV/EBITDA outcomes under multiple strategic and market cases.

Valorant Consulting — *May 2025 - August 2025*
Summer Analyst
- Built negotiation decks for a Fortune 500 client, driving $8M in supplier cost savings through bulk-leverage opportunities.
- Redesigned client's Source-to-Contract (S2C) process by mapping 20+ workflows and eliminating 3 redundant platforms, implementing AI-driven automation that boosted efficiency by over 30% and eliminated all manual data re-entry.
- Collaborated with an intern team and external AI developer to design a proprietary AI Source-to-Contract platform, streamlining manual procurement workflows into a scalable, sellable service.

Sensit — *Aug. 2022 – Present*
Deputy CEO
- Engineered a multisensory edtech product for neurodivergent learners via primary research at 2 special needs schools, **winning the National Company of the Year Competition (1st of 50+ teams).**
- Boosted user engagement 12× for children with Autism Spectrum Disorder, extending interactions from 5–10 s to 2 min.
- Drafted full financial statements (P&L, balance sheet, cash flow) and shareholder certificates, vetted by an appointed Chartered Accountant & managed offshore product manufacturing and delivery.
- Achieved $2K revenue with 40% gross margin, selling out inventory within 2 weeks via targeted holiday promotions.

Berkeley Slice Lab — *May 2025 – Present*
Undergraduate Researcher
- Built automated parsing pipelines for ASIC design flow, converting unstructured place-and-route power reports into centralized CSV datasets, reducing data preparation times by 40%.
- Ran formal verification (JasperGold) across 500 cycles for CPU elements, generating power-range models used to assess architectural trade-offs for next-generation chips.

Projects

International Business Olympiad | ***Logical Reasoning, Strategy, Business Analysis*** — *September 2023*
- Placed **4th out of 10,000+ competitors globally**, ranking in the top 0.04% of participants.
- Secured **1st place globally** in the Business Strategy Round, alongside scoring 98% in the objective case test round.

Actiform: Golf Swing Correction Software | ***Computer Vision, Matplotlib, Tensorflow, Pandas*** — *June 2025 - Present*
- Developed AI-powered golf swing analysis platform, transforming biomechanical data into actionable coaching insights.
- Benchmarked user swings against professional baselines via temporal normalization to match up timestamps, creating data-driven improvement recommendations that reduced technical errors by roughly 30% in preliminary testing.
- Built market-ready visualization layer, enabling intuitive adoption by coaches and athletes; positioned product for potential partnerships with golf academies and individual use.

Technical Skills & Interests

Technical Skills: Financial Modelling (DCF), Valuation Multiples, Excel, Powerpoint, Java, SQL, Python, C, Pandas.
Soft Skills: Communication, Project Management, Business Acumen, Note-taking, Reverse-Engineering, Organization.
Interests: Cricket, Arsenal FC, Ben Shelton, Poker, Brooklyn 99, Mexican food, Start-ups, Stand-up Comedy, Quizzing.
