Education

University of California, Berkeley *Berkeley, CA*

B.S, Electrical Engineering & Computer Sciences *August 2024 - May 2028*

***Relevant Coursework**: Introduction to Economics, Data Structures, Designing Circuits & Electrical Devices, SportsTech: AI Startup Building, Computer Architecture - Machine Structures, Multivariable Calculus, Linear Algebra & Differential Equations.*

***Awards**: **International Cricket Player** - Youngest ever debutant for Singapore, SOF International Math Olympiad: Global 6th, All-Round Excellence Award for 4 years (1 student a Year), National Athlete & Academic Scholarship Student.*

Experience

Summer Analyst, Valorant Consulting *May 2025 - August 2025*

Dubai, United Arab Emirates

- Built negotiation decks for a Fortune 500 client, driving $8M in supplier cost savings through bulk-leverage opportunities.
- Redesigned client's Source-to-Contract (S2C) process by mapping 20+ workflows and eliminating 3 redundant platforms, implementing AI-driven automation that boosted efficiency by over 40% and eliminated all manual data re-entry.
- Collaborated with an intern team and external AI developer to design a proprietary AI Source-to-Contract platform, streamlining manual procurement workflows into a scalable, sellable service.
- Consolidated vendor data across 21,000+ suppliers and 18 subsidiaries for a $10B+ PE firm, creating a unified taxonomy & single-sheet view that uncovered multi-million-dollar negotiation saving possibilities.

Deputy CEO, Sensit *Aug. 2022 – Present*

Singapore City, Singapore

- Engineered a multisensory edtech product for neurodivergent learners via primary research at 2 special needs schools, **winning the National Company of the Year Competition (1st of 50+ teams).**
- Boosted user engagement 12× for children with Autism Spectrum Disorder, extending interactions from 5–10 s to 2 min.
- Architected QR-code–driven community portal connecting 200+ ASD/ADHD users, expanding ecosystem adoption.
- Drafted full financial statements (P&L, balance sheet, cash flow) and shareholder certificates, vetted by an appointed Chartered Accountant & managed offshore product manufacturing and delivery.
- Achieved $2K revenue with 40% gross margin, selling out inventory within 2 weeks via targeted holiday promotions.

Undergraduate Researcher, Berkeley Slice Lab *May 2025 – Present*

Berkeley, California

- Designed centralized data system consolidating outputs from 10+ power-analysis tools, cutting analysis time by 50% and enabling faster cross-run comparisons for 5+ chip designs & materials.
- Managed automated testing pipelines across 10+ tools, improving chip power-model accuracy and supporting strategic design trade-offs for next-generation chips.

Global 4th, International Business Olympiad *September 2023*

Singapore City, Singapore

- 4th out of 10,000+ competitors globally in the International Business Olympiad, placing in the **top 0.04%** of participants.
- Secured 1st place globally in the Business Strategy Round, along with 98% in the objective case test round.

Projects

Actiform: Golf Swing Correction Software | ***Computer Vision, Matplotlib, Tensorflow, Pandas*** *June 2025 – Present*

- Developed a computer vision–powered swing analysis tool using the MoveNet SinglePose model, enabling frame-by-frame extraction of biomechanical keypoints from golf swing videos.
- Implemented temporal normalization to align user swings with pro baselines for accurate frame-by-frame comparison.
- Developed a real-time recommendation engine to convert pose data into biomechanical feedback (e.g., "backswing too short", "follow-through too high"), aiding all 20 tested users.
- Added a visual layer to highlight joint movement differences, enabling intuitive and personalized swing correction.

Project Open Your Eyes | ***Excel, Powerpoint*** *May 2023 – Present*

- Partnered with the Singapore Red Cross to launch a nationwide cornea pledging campaign, securing 200+ pledges.
- Executed a targeted outreach program, speaking at schools and universities like NUS & NTU, engaging with 1000+ people and being **Nationally recognized** for the project.

Handwritten Notes Converter | ***Python, OpenCV, OCR, docx*** *June 2025*

- Built a tool that extracted handwritten text from iPad notes using OCR (Optical Character Recognition).
- Automated conversion of extracted text into formatted Word documents with Python's python-docx, streamlining note sharing for finance workflows, even making it a one-click operation on office computers.

Technical Skills & Interests

Technical Skills: Financial Modelling, Java, Python, Numpy, Pandas, SQL, Excel, Powerpoint, Multivariable Regression
Interests: Cricket, Arsenal FC, Ben Shelton, Poker, Brooklyn 99, Mexican food, Start-ups, Stand-up Comedy, Quizzing.
