YAN ZHANG

408-457-4353 | annsuna.zhang@gmail.com

PROFESSIONAL SUMMARY

Computer Science student at the University of California, Berkeley with prior U.S. Navy experience in administrative support and IT operations. Skilled in Python, Java, C++, Linux environments, data analysis, and cloud technologies. Experienced in system troubleshooting, identity and access management, and full-stack development. Interested in software engineering, high-performance computing, data analytics, and AI applications.

TECHNICAL SKILLS

Programming: Python, Java, C++, JavaScript
Web Development: HTML, CSS, Node.js, ReactJS, MongoDB
Operating Systems: Linux (command line), Windows
Cloud & IT: AWS Cloud Computing, IT Service Management, Networking Fundamentals
Data & Analytics: Python data analysis, statistics, data visualization, dashboard development
Tools: Git/GitHub, debugging, system troubleshooting

EDUCATION

University of California, Berkeley — Computer Science | 2026–Present
College of Letters & Science | Relevant Coursework: CS 61A, Data C8, CS 47B

City College of San Francisco — Computer Science | 2024–2026
Relevant Coursework: Python, C++, Java, Data Structures & Algorithms, Computer Architecture, Discrete Mathematics, Linear Algebra, Calculus, Physics

Procareer Academy, CA — Full Stack Developer Certificate | 2023
Technologies: Python, JavaScript, HTML, CSS, Node.js, ReactJS, MongoDB; completed algorithm challenges on LeetCode and HackerRank.

NPower — IT Fundamentals & AWS Cloud Computing
Training in hardware/software installation, operating system configuration, networking, cloud computing, and IT service management.

CERTIFICATIONS

CompTIA IT Fundamentals (ITF+) | ITIL Certification | AWS Cloud Computing Certificate | AWS Solutions Architect – Associate

PROFESSIONAL EXPERIENCE

U.S. Navy — Yeoman (Administrative Assistant & IT Clerk) | Jan 2017 – Jan 2023

- Provided basic IT support and troubleshooting for computers and user accounts.
- Managed personnel records, documents, and system access.
- Supported daily office operations and communicated with military personnel across departments.

ADDITIONAL INTERESTS

Software Engineering, High-Performance Computing (HPC), Linux Systems, Scientific Computing, Data Visualization, Machine Learning, AI Applications, Real-Time Dashboards, Networking Technologies
