Admitted to the Global Management Program, Haas School of Business

Accel Middle College/Evergreen Valley College — **San Jose, CA**
GPA: 4.0 — *Aug 2023 – May 2025*

- **Relevant Coursework:** Statistics, Microeconomics, Macroeconomics, Calculus II, Multivariable Calculus, Philosophy, Computer Science I & II, Data Science, Program Structures, Discrete Structures, Finite Math, Linear Algebra, Physics I

WORK EXPERIENCE

Marketing Mindz — **San Jose, CA**
Intern — *May 2024 - May 2025*

- Collaborated with a 10-member team to design and deploy an advanced AI-driven virtual assistant platform that leveraged company website data, significantly reduced average response time from over 10 minutes to under 1 minute, and boosted overall customer satisfaction scores by 30% throughout the course of a successful dynamic two-month pilot project.
- Contributed to the development of multiple advanced AI initiatives, including the generation of high-quality LinkedIn blog content and the creation of a robust chatbot-powered website platform that specifically catered to efficiently delivering accurate and free legal advice services online to more than 500 active users within its first successful month of launch.

Jose Valdez Math Institute — **San Jose, CA**
Program Assistant — *May 2023 - Jul 2023*

- Taught and mentored a class of 30 students for 8 hours daily over the summer, delivered lessons on algebra and trigonometry through personalized methods that addressed individual learning styles; ensured all students successfully passed the class.
- Provided ongoing support by answering student questions, conducting follow-ups to track progress, and regularly sharing updates with parents, which significantly increased student engagement by >50% and improved overall confidence/attitude.

LEADERSHIP EXPERIENCE & ACTIVITIES

FTC Robotics-Omega 9656 — **San Jose, CA**
Captain — *May 2019- June 2025*

- Served as Captain of an FTC robotics team with 10+ members, leading the mechanical engineering division and coordinating outreach workshops while fostering collaboration through internal team socials and community events; successfully guided the team to regional championships twice and secured multiple grants and a valuable long-term corporate sponsorship.
- Applied technical expertise in Onshape and Android Studio to design innovative robot components and develop a comprehensive coding education website that reached 1,300+ users, expanding STEM access throughout the community.

Boy Scouts of America — **San Jose, CA**
Eagle Scout & Senior Patrol Leader — *Jan 2019 - June 2025*

- Led the largest Boy Scout troop in San Jose with 100+ members as Senior Patrol Leader, successfully organizing weekly meetings, campouts, and Courts of Honor while actively training younger scouts in essential leadership and outdoor skills.
- Earned Eagle Scout rank (Oct 2024) with 51 merit badges, 6 Eagle palms (<1% of Eagle Scouts); consistently served in multiple key leadership roles and even stayed actively engaged as a mentor and assistant scoutmaster after aging out.

Stock Prediction Research & Patent Pending — **San Jose, CA**
Researcher — *Aug 2024 - May 2025*

- Conducted a comprehensive research survey on existing stock prediction methods, analyzing their pros and cons, and designed improved approaches based on their core strengths; worked under the close mentorship of a Cornell PhD student.
- Developed a Python-based stock prediction model that autonomously buys and sells stocks, consistently achieving over 95% accuracy and simulated profits of $10,000+ during testing; successfully applied for an official formal patent application.
