EDUCATION

University of California, Berkeley | Berkeley, CA — Expected May 2029

B.A. Analytics, Concentration in Algorithm & Decision Systems — GPA: 3.9/4.0 (Major: 4.0/4.0)

Relevant Coursework: Financial Accounting, Multivariable Calculus, Data Structures, Introduction to Economics

EXPERIENCE

Baer Investment Advisory — Berkeley, CA

Research Analyst Intern — *Jan 2026 – May 2026*

Supported fundamental equity research at $120M RIA; contributed industry analysis to investment theses on industrials.

- Researched global agriculture across crop economics, farm income cycles, and input costs, sizing sector at $5T+ in production value; tracked segment-level demand across North America, Europe, and Brazil against USDA farm income forecasts
- Built competitive positioning analysis benchmarking client holding against CNH and AGCO on market share, margin profile, and dealer network; assessed moat durability against precision-agriculture adoption and competitor M&A (Raven, Trimble)
- Synthesized company filings, earnings calls, investor presentations, and third-party research into industry sections of 52-page investment thesis, framing cyclicality and secular precision-agriculture growth behind the fund's core-holding recommendation

Transcend Partners — Remote

M&A Intern — *Aug 2026 – Present*

- Sourced and screened 80+ software and SaaS targets per mandate across 3+ concurrent buy- and sell-side engagements, applying revenue, growth, and retention filters to distill each pipeline to 10–15 qualified opportunities for partner review
- Mapped and segmented 30+ buyer and investor lists per mandate by sector focus, deal-size fit, and acquisition strategy, sequencing targeted outreach that compressed contact-to-NDA timelines across concurrent live sell-side processes
- Coordinated buyer outreach across 50+ contacts per mandate on 3+ concurrent sell-side processes, tracking and documenting NDA execution, CIM distribution, and IOI deadlines to compress contact-to-NDA timelines by 2 weeks per process

Dockbridge Partners — Remote

Deal Sourcing Analyst — *Sep 2025 – Jan 2026*

Search fund pursuing control acquisition of a U.S. warehousing, fulfillment, and third-party-logistics (3PL) distribution business.

- Analyzed 20+ CIMs for business model, customer concentration, owner dependence, and financial quality, writing pre-diligence hypotheses and challenges that fed partner Advance/Discuss/Pass decisions against buybox criteria
- Sourced on-market acquisition targets across broker platforms using keyword and category logic; screened each opportunity against EBITDA thresholds, recurring-revenue quality, and remote-operability criteria defined by two firm buyboxes
- Scored small-business targets against firm acquisition archetypes weighting remote-operability tier, recurring-demand durability, and AI-displacement risk, classifying live and historical marketplace examples for supervised partner review

Kleis Commerce — Taipei, Taiwan

Sales & Operations Intern — *May 2026 – Aug 2026*

- Ran onboarding and account operations for portfolio of export B2B and B2C manufacturers, flagship client Hushan Autoparts (NT$1.5B, TWSE-listed) and 101 Autotech, launching catalogs for 10+ clients onto single commerce platform
- Cut manufacturer onboarding turnaround from multi-week baseline to under 10 hours by rebuilding catalog and quote setup process, compressing quote-to-cash cycle and accelerating revenue readiness across concurrent B2B client launches
- Converted fragmented ERP, Excel, and PDF inputs into standardized, queryable SKU and sales datasets across 10+ manufacturer catalogs, powering automated tiered pricing and AI-search visibility for cross-border B2B export clients
- Drove prospective clients through sales pipeline by running primary research on competitive positioning, SKU and fitment complexity, and decision-makers, then packaging findings into call-prep briefs ahead of live client meetings

Nissan — Berkeley, CA

Strategy Consultant — *Aug 2025 – Nov 2025*

Student consultancy; 10-week engagement advising Nissan on U.S. consumer powertrain perception and go-to-market strategy.

- Surveyed consumers across four generational cohorts and three U.S. regions, mapping awareness and perception of ICE, hybrid, and ePower powertrain technologies to identify comprehension gaps shaping client's U.S. go-to-market strategy
- Benchmarked competitive powertrain positioning and messaging across Toyota, Honda, and Tesla, isolating consumer comprehension gaps around hybrid and ePower branding that informed the U.S. sales playbook and go-to-market positioning
- Built and delivered naming perception analysis testing ePower versus hybrid branding across U.S. consumer segments, quantifying recognition and preference to guide the client's internal product naming and launch communication decisions

LEADERSHIP & ACTIVITIES

Pi Sigma Epsilon — Berkeley, CA

Vice President of Public Relations — *Feb 2026 – Present*

Professional business fraternity whose consulting branch runs paid strategy engagements for corporate clients.

- Direct corporate development for 50-member chapter, leading outreach, pitch, and negotiation to source and close new paid consulting clients across finance, technology, and startups funding majority of chapter's semester revenue
- Manage portfolio of 20+ corporate client relationships across finance, technology, and startups, scoping consulting engagements and preparing tailored decks presented to client executive boards before delivery by member project teams
- Promoted from Director to Vice President after one semester; expanded engagement pipeline by sourcing 5+ new corporate accounts per semester through cold and warm outreach, coffee chats, and alumni referral networks
