EDUCATION

University of California, Berkeley, Letters and Science - *Cumulative GPA: 3.91* — Berkeley, CA
Bachelor of Arts in Economics & Data Science — Expected May 2028

WORK EXPERIENCE

Lawrence Berkeley National Laboratory — Berkeley, CA
Machine Learning Engineer Intern — June 2025 – August 2025

- Developed convolutional neural network (CNN) models for hydrometeor classification, experimenting with architectures (ResNet, DenseNet, EfficientNet) and data augmentation to reduce overfitting and improve spatial feature extraction.
- Built Python-based data preprocessing pipelines to convert raw radar wave signals into human-readable range-Doppler plots, implementing multithreading to optimize processing speed and scalability.
- Collaborated with engineers, environmental researchers, and division coordinators; presented final results and competed in a lab-wide poster presentation, strengthening teamwork and scientific communication skills.

Amplified Planning — Virtual
Financial Planning Intern — June 2025 – August 2025

- Completed weekly modules on cash flow, investment, retirement, estate, insurance, tax, and college planning strategies.
- Utilized various tools including eMoney, Morningstar Advisor Workstation, Redtail CRM, Asset-Map, and EncorEstates to model comprehensive client financial plans and evaluate risk-adjusted investment strategies.

Vendnovation — Redmond, WA
Sales & Client Relations Intern — January 2024 – October 2024

- Maintained a book of 50+ client accounts using Zoho CRM to track interactions, gather feedback, and ensure personalized service, resulting in a 13% improvement in repeat customer engagement and contributing to Q2 customer retention goals.
- Compiled and analyzed sales data using Excel, then developed interactive dashboards and executive-level presentations using PowerPoint and Power BI to visualize trends, inform strategy, and guide leadership decision-making.
- Proposed expansion into the IT solutions sector by identifying opportunities to integrate vending technology with software services, expanding the company's market potential.

Variantz — Singapore
Strategy & Market Research Intern — April 2024 – August 2024

- Conducted extensive market research on smart home products, utilizing regression analysis and consumer segmentation to support campaign design, which increased revenue by 22% YoY.
- Optimized the company's digital presence and implemented efficient fulfillment processes on major e-commerce platforms such as Shopee and Lazada, improved operations, search rankings, and customer satisfaction.

CLUBS & ACTIVITIES

Code for Good — Berkeley, CA
Finance Chair — August 2024 - Present

- Managed $6,000+ in annual budgets for six social impact projects, ensuring equitable fund allocation, transparent reporting, and financial sustainability across all organizational efforts.
- Coordinated with clients to verify and process payments, ensuring accuracy, transparency, and on-time fund distribution.

Women On Wall Street — Berkeley, CA
Analyst — August 2024 - Present

- Attend weekly workshops and simulations to strengthen understanding of markets, portfolio strategy, and wealth management.
- Team with peers on stock pitches, improving financial modeling, critical thinking, and verbal and written communication skills.
- Build connections with 15+ industry mentors, developing strong relationship-building and professional communication abilities.

SKILLS & INTERESTS

Skills: Microsoft Office (Word, Excel, Outlook, PowerPoint, Power BI), Zoho CRM, eMoney, Morningstar Advisor Workstation, Redtail CRM, Asset-Map, and EncorEstates, Python, R, SQL, Java, machine learning, oral & written communication, presentation, teamwork, leadership, financial analysis, data analysis, market research.

Languages: Fluent in English and Mandarin (reading, writing, speaking).
