EDUCATION

University of California, Berkeley May 2029
B.S. Business Administration Berkeley, CA
B.A. Computer Science
Coursework: Business Analytics, Data Structures & Algorithms, Linear Algebra, Discrete Math, Data Science Foundations

EXPERIENCE

Berkeley SkyDeck | *Operations Intern* Sep 2025 - Present
- Support operations for an $85M AUM startup accelerator, including founder interviews, Demo Day logistics, workshops, and other events supporting a portfolio of 100+ startups.
- Automated internal workflows using Google Apps Script, reducing email volume by 20% and saving program coordinators 5+ hours per week through dynamic sign-up forms and automated founder-advisor matching.
- Participated in 30+ startup investment interviews alongside GPs and investors.

Google | *Corporate Engineering Apprenticeship* July - Sept 2023
- Selected for an intensive Corporate Engineering program, engaging with department leaders to analyze workflows across finance, product management, and business intelligence.
- Collaborated in a 4-person team to develop and pitch an AI-powered financial tool designed to analyze balance sheets and simplify accounting workflows. Built a minimum viable product and presented a growth objective & GTM plan.

PROJECTS

Bayesian Analysis of Dividend-Capture Returns | *Research Publication* Summer 2025
- Analyzed stock market data from 1990-2025 to determine the profitability of dividend-capture trading strategies over 35 years, and the factors that impacted returns. Research published at *ssrn.com/abstract=5473306*
- Built Bayesian linear regression models in R, using No-U-Turn Sampling through the rstanarm package.

Stock Market Pattern Recognition with Java | *Technical Project* Summer 2024
- Designed an algorithm to conduct technical analysis on stocks in the S&P 500 and identify bullish chart patterns.
- Used the Selenium package to scrape daily stock data from Yahoo Finance, and wrote a program in Java to analyze local minima and maxima to identify patterns.

VOLUNTEERING

Sutardja Center for Entrepreneurship and Technology | *Incoming Course Instructor* Aug - Dec 2026
- Selected as student instructor for Berkeley SCET's "Introduction to Startups" course in Fall 2026.

Los Altos Hacks | *Organizer* Nov 2022 - Apr 2024
- Organized Los Altos Hacks VII and VIII, to date the largest high school hackathons in the US with 425+ attendees at each 24-hour event. Backed by sponsors including Google, 8VC, Juniper, and Vercel.
- Managed event logistics, developed 20+ sponsor leads, secured 30+ mentors and judges. Event raised $50,000 in total.

The Silicon Valley Investment Bowl | *Founder, Lead Director* Jun 2023 - Oct 2024
- Scaled into California's largest in-person student investment competition within 2 years, reaching 100+ attendees. Led a 6-person organizing team, recruited 15+ industry judges, and managed all event logistics.

SKILLS & AWARDS

- **Technical Skills:** Python, R, Java, Javascript, C++, Selenium, Excel, CRMs
- **SAT:** 1560 / 1600
- **President's Volunteer Service Award Gold:** Achieved 100+ hours of volunteering and community service
