YVONNE AN

Berkeley, CA | (650) 732 0648 | yvonnean8@berkeley.edu

EDUCATION

University of California, Berkeley **GPA: 3.3/4.0**

Bachelor of Data Science — Domain Emphasis in Business & Industrial Analytics

EXPERIENCE

HP Tech Ventures | Paid Internship *Remote*

Venture Capital Intern *Nov 2025 - Jan 2026*

- Identified GTM constraints & follow-on economics within co-authored memos, supporting partnership decisions that led to successful onboarding of 4 new portfolio companies with projected combined valuations > $100 million.
- Executed comprehensive due diligence on 1 select high-potential startup by analyzing market trend integrations, financial statements, vertical strength evaluations, competitive positioning, to deduce a $50M growth opportunity.
- Conducted due diligence alongside Senior Partner, developing risk assessment frameworks for 4 Series A/B companies with structured analysis spanning key scalability challenges, gtm motion, moat durability, and scaling risk.
- Co-authored investment-style memos (thesis, upside/downside, key risks, beachheads, adoption friction, etc), translating into decision-ready briefs used during internal discussion and partnership consideration.

Hanwha Finance | Global Internship Program *Seoul, KR*

New Business Planning Intern *Jun 2025 - Aug 2025*

- Structured market-entry plan for 1 initiative; defined ICP, pricing assumptions, and launch sequencing, aligning stakeholders across 5 functions (biz/dev, product, finance, legal).
- Prototyped "verified consent + proof" mechanism: verifiable credentials for prevention actions (clean-air checklist / HEPA adoption) & tamper-evident proof registry that supports revocation and selective disclosure (eligibility proofs without exposing raw health data).
- Drafted risk-range engine that estimates exposure×vulnerability under uncertainty → route intervention (coach vs telehealth vs meds vs air support) based on predicted uplift, turning "yellow dust anxiety" → measurable, actionable system.
- Produced new-business strategy memo + executive deck (12 slides) translating technical design → deployable model: defined target cohorts (asthma/COPD households, outdoor workers, caregivers + children), mapped 4 stakeholders (insurers/hospitals/pharmacies/municipalities), identified 3 pilot pathways.
- Owned weekly reporting for new business intelligence (AI/Blockchain) integration track; consolidated 21 workstreams into a single operating dashboard using Monday.dev, reduced update latency from 4 days → 15 hours.

Möbius Teach *Berkeley, CA*

Cofounder, Product *Jan 2025 - Present*

- Led 0→1 product work: customer surveys → workflow mapping → PRDs → UX research → UIUX prototypes (Figma) → User/Usability testing (Maze); translated pain points into roadmap decisions & release sequencing.
- Collaborated with engineer to design MCal-style scheduling logic (constraint-based matching + rescheduling heuristics) & roadmap for dynamic financial dashboard (cost breakdown, profitability, burn/runway).
- Co-founded AI-enabled B2B platform for private academies; Berkeley SkyDeck Pad-13 & Haas eHub BUILD.

LEADERSHIP

UX@Berkeley | UIUX Consulting & UX Engineering *Berkeley, CA*

VP, Founder *Aug 2025 - Jan 2026*

- Lead teams of 5-6 to reach through partnership programs with Instacart, MyShake, DoorList, etc & structured pipelines for up to 14 teams.
- Founded UX Engineering and scaled it from 0→21 (first semester) to change from workshop-based learning into client-style, cross-functional delivery teams from UX research, UI design, up to UX analytics & UI optimization.

PROJECT

Acute AI *Berkeley, CA*

Social Media Growth & Content Analytics *Sep 2024 - Jun 2025*

- Scaled creator platform with a select brand persona from 2000→700K+ followers by building a lightweight scoring model in a form of analytics-driven content bot to operationalize growth loop, total $40,000 profit in 6 months through strategy and campaign optimization.
- Built content analytics dashboard tracking 3 KPIs: consumption (pageviews, time on page, scroll depth), engagement (shares, comments, clicks), conversion metrics (leads, sales); Delivered performance reporting for 60+ brand campaigns; quantified ROI in terms of CRM, impressions, clicks, conversion proxies, improving sponsor renewal likelihood & relationship management.
- Analyzed audience segmentation across 12 cohorts (different gender/age/regions, etc) with the top 5 content pillars driving follower conversion.

SKILLS & INTERESTS

Highschool: International School Manila **SAT/ACT: 1560/36**

Coursework: ENGIN 183C, CS189, CS188, DATA 140, DATA 104, CS 70, CS61B, CS61A, DATA C8,

Honors: Best Delegate Diplomatic Excellence Awards (UN-accredited), National Community Service Awards (UNDP & InnerView)

Languages: English, Korean, Tagalog (Filipino), Spanish

Interests: Jetskii, island-hopping, making music, interior design, building PCs/keyboards, baking!
